## In Strauss Debate

# Johnson Is Opposed To Pressure Tactics

WASHINGTON—(AP)—Against a background of reports of faked telegrams to a senator, Senate leader Lyndon B. Johnson (D-Tex) issued a warning today that any pressure tactics in the controversy over Lewis L. Strauss would backfire.

Johnson took the unusual course of making a public statement as the Senate took up the hotly-disputed nomination of Strauss to be secretary of commerce. A vote appeared days—perhaps weeks—off.

"The nomination is a matter upon which each senator votes his conscientious interpretation of the

Atomic Energy Commission facts that are in the record," Johnson said. "The issue is solely and simply the merits of the appointment."

Earlier, in talking with newsmen, Johnson had called attention to the Senate speech by Sen. George A. Smathers (D-Fla.). Smathers said he had received two telegrams urging a vote for Strauss which purported to come from Florida citizens who later informed him they had not sent the messages or permitted use of their names.

Johnson, who has not made his own position known, refused to guess when a Senate vote on Strauss might come.

The committee divided 9-8 in recommending confirmation of

Strauss, former chairman of the Senate Jan. 17, has stirred up the hottest fight of any appointment made by President Eisenhower. The Senate is not expected to reach a vote on it before the week after next.

Senators generally have been predicting a close vote, with many agreeing a margin of one or two votes either way will decide the issue.

If all the 98 senators vote, Strauss would need 49 or 50 to win. Vice President Richard M. Nixon could break a deadlock in Strauss' favor if a 49-49 tie should develop.

## Frank Carbo Remanded To County Jail

### Jury Had Indicted Him on Ten Counts Of Conspiracy

CAMDEN, N.J. (AP)—Frankie Carbo, described as "a most corrupt, corrosive and degenerating influence on the sport of boxing," was remanded to Camden County Prison today pending outcome of extradition proceedings filed by the City of New York.

Judge Benjamin Dick, who had freed Carbo in \$25,000 bail Memorial Day, canceled the bond on grounds the governor of New Jersey had signed an extradition warrant. Thus, he ruled, there could be no bail.

The judge said that Carbo had 10 days to file a writ of habeas corpus.

If the writ is not filed and granted, Judge Dick said he will turn Carbo over to New York authorities immediately.

A New York County grand jury has indicted him on ten counts charging conspiracy and charging that he was an underworld boxing manager and matchmaker. He is also wanted on federal charges of income tax evasion.

Carbo has been a fugitive since last July 24 when he was indicted by the New York jury. John Bonomi, assistant district attorney of New York County, said Carbo has a long record of disappearances after indictments.

Carbo was arrested in the home of a Camden County friend May 30 by New Jersey State Police. Thursday, Gov. Robert B. Meyner signed extradition papers to give New York custody of Carbo. Today's hearing followed.

## Broadway School Offers Six-Week Summer Session

A six week summer session at Broadway School will open June 15 and close July 24. This is a half day session — 8 to 11:30 a.m.

The purpose of this summer program is to make available at a nominal cost to parents, special help to children who are academically retarded. With additional time and individual attention many of these people can be brought nearer grade level. This is a remedial program and not for additional credit. A child might be retained or promoted on the basis of summer school attendance sometime in the future, but only after the program has been in operation for a year or two.

The subject area emphasis will be on reading and arithmetic. There will be a tuition of \$30 for the six weeks.

The tuition must be paid in advance to the Sedalia School District 200.

All text books will be provided by the school. Practice books and special workbooks will be provided by the individual.

The program is not being limited to any grade level in the elementary school.

The class minimum for organizational purpose is ten and the maximum is 20.

The place to enroll and pay tuition is the board of education office at Smith-Cotton High School.

The deadline for summer school enrollment is June 10.

Anyone desiring information about the program may talk to his school principal or call the superintendent's office, TA 6-1054.

## Report Termed False

# Police Commissioners Board Rebukes Kansas City Sheriff

KANSAS CITY (AP)—Sharp criticism was hurled at Sheriff Arvid Owsley yesterday at a meeting of the board of police commissioners which discussed charges that organized vice exists in Kansas City.

Police Chief Bernard C. Brannon and Lyman Field, president of the police board, criticized the sheriff for supporting charges by the Missouri Young Republican federation that vice is condoned by the Kansas City police department.

The Young Republicans made the charges in a report submitted to the Missouri attorney general.

In commenting on the report, Owsley said organized crime does exist here and has political ties. Field said the Young Republicans report was irresponsible and did not cause any concern to the attorney general or the governor until the sheriff commented on the crime situation.

"We regard it as far more irresponsible than the Young Republicans' action for Sheriff Owsley to impugn the integrity of this fine department," Field said, "by first announcing the day before yesterday that organized crime exists in Kansas City and then, yesterday, releasing this scandalous and untrue oral report of the Young Republicans to the

## Vehicles Collide: Scrambled Eggs But Not to Eat

A case of eggs was scrambled in the intersection of Third Street and Missouri Avenue Thursday when a truck loaded with eggs and a 1956 Buick collided there at 3:33 p.m. There were no injuries.

The truck, a 1953 International owned by Producers Exchange of Lincoln, Mo., was driven east on Third by Lawton Henry Swearingin, 46, Lincoln; and the Buick was driven north on Missouri by Leonard Arthur Salmon, 62, 303 East Second Street.

The case of eggs slid forward over the hood of the truck either when the vehicles collided or when Swearingin hit his brakes—he said he didn't know which. The egg cases were tied on the open truck bed with ropes.

The right front fender of the truck was damaged and the left front fender of the Buick was damaged. The Buick was towed away by Bacon's wrecker.

Both drivers were given summonses to police court on charges of reckless and careless driving.

## Liberty Swimming Enrollment Deadline Will Be on June 8

The Red Cross swimming enrollment for the Liberty Park pool closes June 8, and cards must be in the Red Cross office, 112 West Fourth, by that time, Henry Sutton, chairman of the Red Cross water safety program, said today.

Each person enrolling has a preference of the two periods: June 16 through July 3, and July 7 through July 24, with classes conducted Tuesday, Thursday and Friday mornings according to the particular age group.

Benny Walter, instructor, stated that all enrolling for intermediate swimming will be in the same group, the time to be announced. Junior and Senior Life Saving classes will be conducted in early August.

There is no charge for the Red Cross instruction.

## Red Goal Criticized By Herter

### Secretary of State Says Annexation Of Berlin Intended

GENEVA (AP)—U.S. Secretary of State Christian A. Herter charged today that the Soviet Union's real purpose in the Big Four conference here is to strip West Berlin of the protecting presence of the Western powers and clear the way for its eventual annexation by Communist East Germany.

In a strongly worded speech to a conference session at the Palace of Nations, Herter told Soviet Foreign Minister Andrei Gromyko the Western powers will not abandon two million West Berliners or impose any new status upon them against their will.

The Big Four went into semi-public session after spending most of their fourth week here in secret talks at villas of the various ministers.

Information on Herter's speech became available while today's meeting was still in progress.

He said Gromyko stated some days ago that the preferred Soviet solution for the Berlin problem is annexation of the city to East Germany.

Failing this, Herter declared, the Soviet minister has fallen back on a roundabout approach to the same end. He has asked the United States, Britain and France to give up their occupation rights in West Berlin — war-won rights which they possess independently of any Soviet agreement.

Herter's speech constituted a new rejection of the proposal to scrap the occupation rights and adopt Russia's free city plan for West Berlin. He also told Gromyko the West will not try to purchase a Berlin settlement by paying the price of recognition of Communist East Germany.

## Those Classified Ads Get Instant Results

When a large group of boys gathered at the Pioneer Stamp Store Friday morning, people in the downtown district at that time became interested and curious. What were all those boys doing there at the same time?

The reason was a classified want ad in The Democrat-Capital for a stock boy. There were 25 applications. One of the boys was hired. He is Johnny Meteja, and Johnny stayed around the rest of the day to get onto the job so he could go to work as a stock boy Saturday morning.

## Reminder

Have you been out to enjoy Liberty Park yet this year? The weatherman says it may rain, but don't let that stop you. In between showers, have fun at the park.

Considerable cloudiness with little temperature change tonight and Saturday; scattered showers or thunderstorms; low tonight 60, and high Saturday 80.

The temperature at 7 a.m. was 63 and 79 at 1 p.m. Low Thursday night 60.

The temperature one year ago today, high 90, low 70; two years ago, high 86, low 62, with .02 inch of rain; and three years ago, high 80, low 65.

# Adenauer Firm in Decision To Keep Job as Chancellor

## His Party Has Yielded To His View

### Turn Arouses Much Criticism in Both Sides of Germany

BONN, Germany (AP)—Konrad Adenauer held fast under pressure today to his surprise decision to keep his job as West Germany's chancellor instead of moving up to the presidency.

There was criticism from Germans on both sides of the Iron Curtain; uneasy silence among Western diplomats at the Big Four foreign ministers conference in Geneva.

Socialists and other political foes of the 83-year-old chancellor in Bonn were reported busily trying to mobilize enough opposition in the Bundestag, the Lower House of Parliament, to unseat him on a vote of no confidence.

This could not be done, however, without the assistance of defectors from the powerful ranks of Adenauer's Christian Democrats.

But the Christian Democrats, after hours of wrangling, bowed late today to Adenauer's decision. Party sources said his followers gave up the struggle to make him change his mind.

A Socialist viewpoint was expressed by West Berlin's Mayor Willy Brandt, who is visiting in Copenhagen. Brandt said "I consider the circumstances around the nomination of the presidential candidate disgraceful."

Several leaders of that party urged Adenauer at a closed meeting to revert to his original plan and run for president as a sure thing candidate in a Federal Assembly election scheduled July 1.

Participants said concern was expressed that the prestige of the Christian Democrats, a Catholic center party, would be seriously damaged by the frequent changes of mind about who was going to be the candidate for the presidency, a largely ceremonial position that Adenauer had intended to strengthen.

First there was Heinrich Krone, the party's parliamentary floor leader. Then there was Ludwig Erhard, 62-year-old economics minister who ranks second only to Adenauer in personal popularity.

In Washington Vice Chancellor Erhard said "I have never laid claim to the chancellorship as long as Dr. Adenauer is chancellor."

One factor reported to have entered Adenauer's decision was the strong support in his party, the Christian Democrats, for Erhard as his successor. Adenauer is reported to favor Finance Minister Franz Etzel.

Erhard made his comment on the White House steps a few minutes before conferring with President Eisenhower.

## Open Letter to Philadelphia

# Grieved Father Offers Help To Boy Murderer of His Daughter

PHILADELPHIA (AP)—A father, sick with grief over the senseless slaying of his 3-year-old daughter, today wrote an open letter to the people of Philadelphia offering to help the 15-year-old honor student who confessed the slaying.

Anatol Holt, 31, mathematics instructor at the University of Pennsylvania, expressed thoughts of his tortured mind in a copyrighted article in the Philadelphia Bulletin.

"Dear people of Philadelphia," Holt wrote, "I write to you this morning at the rise of dawn, still in the midst of a tormented wake, the most terrible grief which has ever seared my soul."

"Yesterday afternoon I lost the most precious thing that life ever gave to me—a 3½ year old girl child. She was murdered at three in the afternoon, in the basement of a house only a few doors away from ours."

"Had I caught the boy in the act, I would have wished to kill him. Now that there is no undoing

## Both Sides Are Heard

# Women Hear Reuther Over A Protest From Pickets

LOS ANGELES (AP)—Over protests of pickets outside, delegates to the General Federation of Women's Clubs Thursday night heard talks by leaders of both labor and management.

The picketers carried signs lambasting the speaker on the labor side of the program — Walter Reuther.

The president of the United Auto Workers warned the audience that America, for its own survival, must:

End racial discrimination, improve the quality of education, expand foreign aid, utilize its economic potential and revitalize its intellectual climate.

## Late Bulletins

### Flight Postponed

EDWARDS AIR FORCE BASE, Calif. (AP)—The Air Force was about to send the rocket ship X15 aloft for its first glide test today but a last-minute electrical malfunction caused a delay.

A flight was postponed until Monday.

### Merger Is Voted

FAYETTE, Mo. (AP)—The Missouri Conference of the Methodist Church voted today to merge with the Southwest Missouri conference under certain conditions.

The chief condition was that a year of study be provided to make satisfactory adjustment of pensions funds and other matters.

Reuther, president of the United Auto Workers Union, told the national convention of the General Federation of Women's Clubs Thursday night: "Most of the people of the world are dark skinned, and they include 90 per cent of the uncommitted people who in the ultimate struggle between the forces of freedom and tyranny will hold the balance."

"They will either tip in our way in favor of freedom; or they will tip the other way, in favor of the forces of tyranny which destroy these basic values," he said.

"As we face these people in the world, we need to get our credentials in order. You ought to sit down with peasants in India and try to explain Little Rock."

Half an hour earlier, the 3,000 delegates heard Charles R. Sligh Jr., executive vice president of the National Assn. of Manufacturers. Sligh said labor leaders are invoking the power of unions—which he described as the strongest political force in the country—to promote personal political aims.

Reuther did not refer to Sligh's assertion in his speech.

## Convicted Wife Killer Caught After Escape

JEFFERSON CITY (AP)—A convicted wife killer who escaped from a prison farm Tuesday night is being held in Kansas City, the Highway Patrol reported today.

He is Murrell King, 49, who slipped away from the prison's church farm west of Jefferson City while serving a life term.

## Court Asked To Set Day Of Execution

LINCOLN, Neb. (AP)—Nebraska Atty. Gen. C. S. Beck asked Nebraska Supreme Court today to set a new date for the execution of condemned killer Charles Starkweather.

A decision by the court was expected before the day's end.

The doors of the federal courts slammed shut on Starkweather Thursday when three judges of the 8th Circuit Court of Appeals turned down his appeal for a hearing on his request for a writ of habeas corpus.

The federal judges also refused to extend a stay of execution granted Starkweather May 22 so that he might bring his application before the appeals court.

Starkweather heard the news of the action on a radio in his penitentiary cell. When Acting Warden John Greenholtz visited him shortly afterward, the condemned youth had nothing to say.

His father, Guy Starkweather, who was instrumental in winning the stay of execution, said he did not know what, if anything, might be attempted next in Charles' behalf.

He expressed interest at the suggestion that an application might be made to the Lancaster County District Court for a writ of habeas corpus.

The question, he said, was where he could find an attorney to handle the case. The attorneys who argued before the appeals court were prominent Omaha and Lincoln lawyers appointed by the court for that appearance only.

## Judge Rules Atlanta Schools Cannot Stay Racially Segregated

ATLANTA (AP)—Federal Judge Frank A. Hooper ruled today that Atlanta schools cannot remain racially segregated.

But he indicated he will not order immediate integration which could lead to closing of the city's classrooms in September. Instead, it appeared he would allow municipal authorities time to work out an integration pattern. Under present law any integration could result in school closings.

## Rose Show Saturday At Little Theater

The 11th annual rose show, sponsored by the Sedalia Rose Society, will be held Saturday, June 6th, in the Little Theatre, Smith-Cotton High School.

Roses of all kinds will be exhibited and many attractive arrangements will be created around the theme of the show "June — Brides and Roses." The Little Theatre will be open ready for those with roses to exhibit at 8 a.m. and must be in place by 11 a.m. The show will be open to the public from 1 to 9 p.m.

Mrs. J. M. Palmer is general chairman of the show.

## Trinity Lutheran Church Makes Change

There will be only one Sunday service at Trinity Lutheran Church, Tenth and Osage, beginning this Sunday. This service will be at 8:30 a.m., followed immediately by the Sunday School. The pastor will be supplying at United Lutheran Church at Cole Camp.

The theme of the sermon for this Sunday is "Faulty, Fatal Excuses." The organist for the service will be Robert Fingland. His organ selections will be: Prelude, "We Worship Thee," by Lorenz; offertory, "Pow Lento," by C. Franck; postlude, "Festival," by Norman. Acolytes will be Charles Baker and Jimmy Carter.

The daily Vacation Bible School continues this week. On June 14 there will be a children's service in which children of the school will participate.

The United Lutheran Church Women meet this Thursday afternoon at the home of Mrs. Donald Ing.

## East Sedalia Group Honors Its Pastor

"D" (Davidson) Day will be observed at the East Sedalia Baptist Church Sunday. This day has been set aside in honor of the pastor, the Rev. Kenneth W. Davidson, and his family, who have completed three years of devoted service to the church and community.

The "D" Day objective is to surpass all attendance records in Sunday School, Training Union and the worship services. A reception honoring the Davidson family will be held immediately after the evening worship service. Church members and friends are invited to attend.

The Chapel Choir will practice Sunday at 5:30 p.m. Mrs. Aubrey Moore will serve refreshments.

The second week of Vacation Bible School will begin Monday, June 8. The processionary march begins at 8:30 a.m. and the school dismisses at 11:30 a.m. Bible stories, memory work, music and handwork are included in the program each day. A commencement program, demonstrating the work the children have done during the two-week school, will be presented Friday, June 12, at 7:30 p.m.

The Rev. Joe Sands will lead the discussion of the Sunday School lesson at the Teachers and Officers Seminar Wednesday at 7 p.m. The monthly business meeting of the church will be held at 7:30 p.m.

The Sunday School has adopted the plan "Operation Home Study" for the summer months. This is a plan whereby the superintendents, teachers, officers and pupils of the Sunday School may study the book, "The Baptist March in History" by Robert A. Baker, in their homes. Credit may be obtained for the course by reading the book and answering the questions.

# Sunday School Lesson Notes:

By William E. Gilroy, D.D.

An interesting and thoughtful letter has come to me from a woman confronted with the question of wearing the cross as a piece of jewelry.

A friend's mother had given her daughter a gold cross, which on the death of his "dearly loved" relative had come into the possession of my correspondent. She valued it for its obvious worth and beauty, and very deeply because of her affection for her friend. Also, as a sincere Christian, she has a deep sense of the meaning of the Cross of Christ. So, for a time, she wore it on a chain.

"For so doing," my correspondent writes, "I was adversely criticized by a Christian who habitually found fault with those he named 'so-called Christians.' I told the critic that if I seemed to show disrespect by wearing the cross I would wear it no more, and I removed it at once."

The letter goes on to express some of her reflections, and hopes that I might help her.

I have counseled her to resume wearing the cross. In general, I deprecate wearing the cross as jewelry, particularly when it is worn without any deep or devout feeling, or response to the Cross of Christ.

I have never worn a cross myself, but where, as in the case of my correspondent, it is a symbol of the reality of human love, in relation to her friend, and of divine love in relation to the Cross of Christ, it seems to me a very different matter.

But whether to wear or not to wear a cross seems to me of much less importance than the matter of judging one another, and setting up one's particular standard for others.

One cannot be too scrupulous and conscientious in fidelity to his own standards and convictions; at the same time, if one is deeply Christian in humility and love he cannot be too careful or scrupulous about judging others.

It is a matter about which I feel strongly; partly because the spirit of divisiveness and of setting others right has so deeply cursed the history of religion, but also because I have seen how possible it is for Christians of very different attitudes to live together in harmony.

In a world torn with conflicts and with hate such harmony suggests what might be possible if Christian and sensible attitudes prevailed.

## Emphasis Placed On Need For Spiritual Trust

The imperative need for trust in spiritual power will be emphasized at the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., on Monday, June 8.

An estimated 7,500 Christian Scientists from many parts of the world — Africa, Asia, Australia, and other distant points as well as the United States and Canada — are enroute to the meeting which convenes annually in Boston.

A new president and two new readers of The Mother Church will be announced at the Monday meeting. Members will hear special reports on the growth and progress of Christian Science charitable, lecture, publishing, healing, and other activities.

The healing of physical disease as well as sin through wholly spiritual means is a distinctive part of Christian Science. A religion based on the words and works of Christ Jesus, Christian Science takes its authority from the Bible. Its teachings are set forth in "Science and Health with Key to the Scriptures" by Mary Baker Eddy, the discoverer and founder of Christian Science.

Those attending the meeting will be laymen. The Christian Science Church has no clergy. Following the main session on Monday, a series of smaller meetings will be held on specialized topics on Tuesday and Wednesday.

## Negro Ministers Sue Dallas, Texas, Hotel

DALLAS, Tex. (AP) — Two Negro ministers have charged the Statler-Hilton Hotel here with refusing them rooms after first taking their reservations.

The Rev. J. Lowell Ware of Birmingham, Ala., and the Rev. C. H. Williams of Detroit, Mich., asked \$15,000 damages each in a suit filed here.

They say the hotel accepted their reservations for the June, 1957, National Baptist Convention here, then refused the rooms when the men appeared.

The ministers charge the hotel with breach of contract and assert they were inconvenienced by having to take rooms at Negro hotels eight miles from the convention site.

The hotel has not filed an answer.

will be Friday, June 12, at 7:30 p.m. at the First Baptist Church. The program for the evening will be in the church auditorium, after which everyone will go to the church basement and view the handwork that has been done by the pupils during the school.

## The Bird Even Had His Own Facilities For the Long Trip

PITTSBURGH (AP) — A robin which built its nest inside the engine cowling of an American Airlines Convair almost got a free ride to Houston, Tex., and delayed the flight 33 minutes.

Capt. N. E. Lundeen, the pilot, spotted the robin flying from the heat door of an engine cowling while preparing to take off from Greater Pittsburgh Airport Thursday.

A ground crew removed the cowling from the engine and pulled out the nest, built of straw and twigs.

# The Leisure Class....

From time to time in the last 20 or 30 years, economic conservatives would warn that more and more of us Americans were being supported by fewer and fewer real breadwinners.

Actually, of course, the total number of employed has risen, with the bulging population, to new peaks.

But, as Fortune magazine observes in its newest issue, so has the number of nonworkers.

These have roughly doubled in the past 10 years and may do so again

by 1970. Today they come to around 5,500,000, and this excludes people over 14 who are going to school, keeping house or looking for work.

Somewhere around 15 per cent of all personal income in the nation is paid out now for nonwork. That includes social security payments, life insurance, private pensions, dividends, interest and rent, and various payments under federal, state and local programs.

Not working obviously has become big business in the United States. And it seems destined to get bigger still.

## Nixon and Gromyko Look Alike

By DREW PEARSON

WASHINGTON — Richard M. Nixon, who shot up to the second political post in the nation in a relatively short period of time, sat not far from Andrei Gromyko, who shot up to the important post of Foreign Minister of Soviet Russia also in a short period of time.

They were at the Foreign Ministers luncheon given by President Eisenhower after the Dulles funeral.

"Mr. Gromyko," said the Vice President pleasantly, "I am sometimes mistaken for you. Traveling abroad they sometimes think I am the Foreign Minister of the Soviet Union."

"And I," replied Gromyko, "am sometimes mistaken for you. They say there goes Vice President Nixon."

### Onetime Oil Friend

Price Daniel of Texas was considered a dyed-in-the-wool champion of the oil and gas companies when he served in the U. S. Senate from Texas. With Daniel back in Texas today as governor, however, the oil and gas companies are fuming and sputtering against their onetime friend.

What Governor Daniel has done is demand that the big pipeline companies pay their share of the tax load for the state of Texas.

Compared with the pipeline companies of Louisiana, the Texas pipeline moguls get off with a mere tax slap on the wrist. If they paid taxes at the same rate as in Louisiana, Texas would have a hundred million dollars surplus in its treasury.

However, Daniel's former gas and oil friends are now yelling "traitor," especially Tennessee Gas Transmission, El Paso Natural Gas, and Herman and George Brown of Texas Eastern. The latter are special friends of Sen. Lyndon Johnson.

Before Daniel was elected to the U.S. Senate he staged a famous battle against a sales tax proposed by the then Governor "Pappy" O'Daniel. It was Price who led the "Immortal 56" legislators in demanding higher taxes on big business, not higher taxes on the consumer. He won.

Today as governor he is equally embattled with his own legislature, much to the great displeasure of the pipeline industry.

## Tara Becomes Shrine

"The harp that once through Tara's halls  
The soul of music shed,  
Now hangs as mute as Tara's walls  
As if that soul were fled.  
So sleeps the pride of former days,  
So glory's thrill is o'er;  
And hearts that once beat high for praise  
Now feel that pulse no more."

— Thomas Moore

"Tara," the hollow mansion built by the movie world for "Gone With the Wind" may have had nothing in common with Thomas Moore's Irish poem, except the name, but the mansion in the movie did represent a glorious age that now sleeps in pride.

It is perhaps because of that pride that "Tara" will soon become a shrine dedicated to the years typified in "Gone With the Wind" in the city of Atlanta, Georgia.

The old movie set, now owned by the Desilu Studios, will be donated by that company, but the transportation and the re-assembling will be done by a group of Atlanta citizens.

"Tara" was never meant to be permanent. It was only a Hollywood set. It had no rooms inside, it was just a facade. It was not typical of Southern ante-bellum mansions, but rather that of an old Irish one, as depicted by Margaret Mitchell, the author. Tara has been seen in many films depicting the South but it has taken an awful beating. Now that it is being moved to Atlanta, it should receive better treatment. In years to come, the harp may be heard again in Tara's halls, and the ghosts of Scarlett, Rhett Butler, Ashley, and Melanie may roam within the mansion.

## On Being Too Serious

Mental illness continues to maintain its status as one of the foremost medical and social problems.

With the advances of science into the space age it may well be that we will find ourselves confronted with an even more hectic way of life, and our sometimes conscious desire to return to the old ways of gentle, quiet living will gnaw at us more often than ever.

Psychiatrists tell us that it is possible to learn to live with the future, as well as today, even though it is unlikely that we can avert trying times within our own lives that will test our capacity for balance.

Many find themselves unable to adjust to adverse conditions because they have over-taxed themselves with too large a workload, leaving too little time for leisure. Others have become slaves to inflexible habit which makes adjustment to new conditions impossible and the pursuit of personal pleasure unlikely.

Every day should have some fun—and smart use of leisure will uncover talents that will provide more fun.

Losing ourselves in a hobby or some kind of civic service will leave little time for noticing how fast we are hurtling through space and perhaps allow us a larger measure of tranquility.

## Go Now, Pay Later

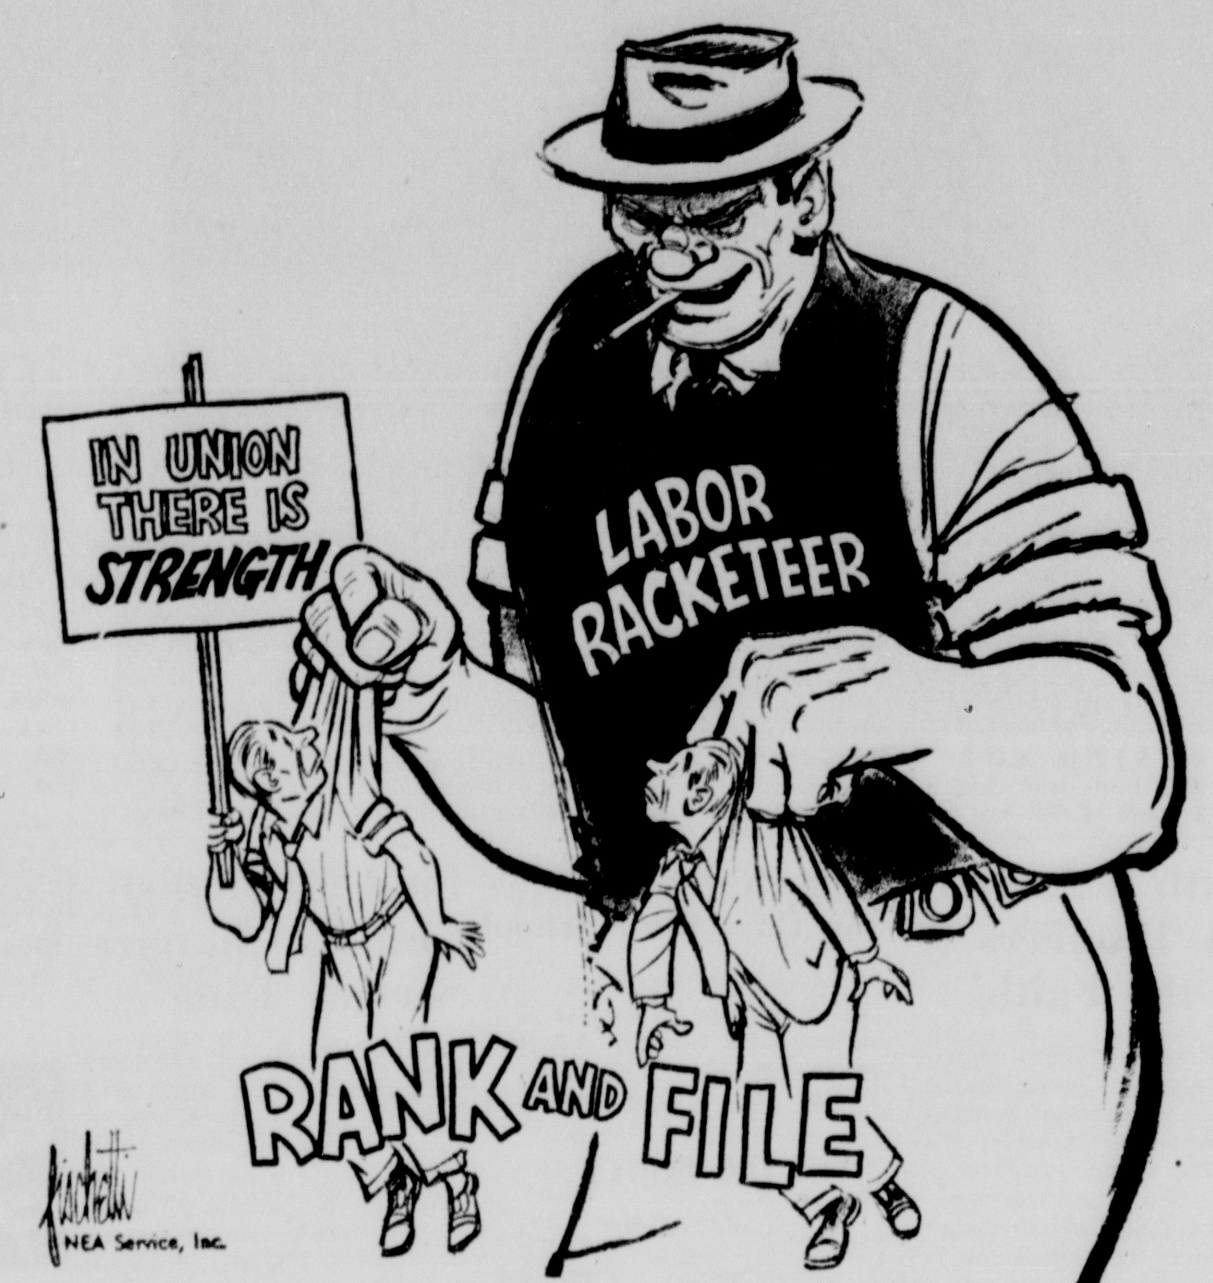

We all act from a variety of motives, and we have to assume that Soviet Premier Khrushchev isn't very different in this regard. For months and months there's been all manner of serious speculation as to why Nikita wants a summit conference with the Western powers.

There is not the slightest reason to doubt that he has a number of deadly serious purposes in urging a top level session. But we must also face it: this man loves to travel. Remember the old days of the traveling troupers, Bulgannin and Khrushchev?

Obviously he's got a terrible itch to see the United States. Last summer during the Iraq-Lebanon crisis it looked as if he might get to New York, but that fell through. Now the rumors are floating that he'd like either another go at New York, or would come to San Francisco.

Why don't we just have Thomas Cook arrange a 21-day package tour of the United States for this fellow? It would probably ease world tensions quite a bit.

## Ike, Khrushchev Try Elbows in the Eyes

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON (AP)—President Eisenhower and Premier Nikita Khrushchev are talking to each other with their elbows.

Now, after months of nudging and little progress, each man can say: Get your elbow out of my eye.

The Soviet premier started it with his threat last November that the West pull its troops out of Berlin—or else.

Why had he created this crisis? For various reasons, maybe.

The West thought this was one of them: To Jimmy his way into a summit meeting with Eisenhower, which he had long wanted. Khrushchev made it plain that was in his mind.

He said the only way to settle the Berlin and other issues was at a meeting of the top men.

At first the West suggested — without strings—that the Western and Soviet foreign ministers meet to discuss Berlin and other German problems.

Eisenhower followed this up fast with a deliberate nudge to Khrushchev. He said there would be no use in a summit meeting unless:

1. There was some previous negotiation (meaning a foreign ministers meeting).

2. And—this has a big string attached—unless the foreign ministers showed progress.

For them to show progress — from the Western viewpoint — meant the Soviets would have to make concessions.

This could be interpreted as the stick and carrot technique used on a donkey. Khrushchev, who doesn't consider his ears long at all nevertheless agreed to a foreign ministers meeting at Geneva.

That meeting, which started almost a month ago, has shown no results.

But Eisenhower, having won his point on the foreign ministers conference, continued to insist there could be no summit meeting unless the ministers made progress (which would require Soviet concessions).

Maybe Khrushchev got fed up on the repetition. Or maybe he doesn't like carrots. At any rate, he nudged Eisenhower back by announcing there was no reason why the Soviet Union should make any concessions.

He said maybe this was not the right time for a summit meeting after all, and he could wait for the right time.

Still, Eisenhower went back to his old theme at his news conference this week, saying: There has not been any "detectable progress" that would "justify the holding of a summit meeting."

But Eisenhower does not have unanimous American support for his position.

Sen. J. William Fulbright this week questioned Eisenhower's wisdom in using progress at Geneva as a reason for meeting Khrushchev or the lack of it as a reason for not meeting him.

The Arkansas democrat, chairman of the Senate Foreign Relations Committee, took this stand:

"If a summit conference doesn't hold some prospect of benefit to the Western world, I wouldn't go. I think it is possible and logical to argue that the complete lack of accomplishment at the foreign ministers level might justify a summit meeting."

John Neely Bryan was the founder of Dallas, Tex. He named the city after his friend, George Mifflin Dallas, of Philadelphia.

## Rangers Were Ordered to Land on Small Stretch of Normandy Beach and Move In

**Editor's Note**—Ranger units hit the beach in Normandy at H-Hour on D-Day, 15 years ago Saturday. With them was G. K. Hodenfield, a combat correspondent for Stars and Stripes, now the AP's education writer. Hodenfield recalls the incredible feats of four Ranger companies in this last of four articles on D-Day.

By G. K. HODENFIELD  
Associated Press Staff Writer

The story of four companies of the U. S. 2nd Ranger Battalion, and their assault on a heavily fortified position in Normandy on June 6, 7 and 8, 1944, is not the big picture of D-Day. That's for generals and historians.

It's not even the little picture of an isolated action. Maybe it's not even a story at all—just the things that one man who was with them remembers best from the greatest experience of his life.

The story of D-Day has to be a story of courage. Maybe that's why, whenever I think of D-Day, I remember Sgt. Bob Youso and Pvt. Alvin White.

The Ranger assignment on D Day was to land precisely at H-Hour (6:30 a. m.) on a rocky shelf of beach barely 15 feet wide, scramble up sheer cliffs more than 100 feet high, and destroy six 155mm guns protected by crack German troops and tons of concrete.

But somebody goofed. The guide boat sent along by the Royal Navy headed for the wrong beach. By the time we reached our landing area: (1) we were 38 minutes late, (2) the naval barrage that was supposed to drive the enemy to cover had long since lifted, and (3) German soldiers lined the cliff tops, peppering us with rifle fire and hand grenades.

As the assault craft crunched to a stop, the Rangers fired a series of rockets that went up and over the cliffs with a loud "whoosh." Attached to the rockets were six-

pronged grapnel hooks. Attached to the hooks were long rope ladders. The Rangers pulled on the ropes until the grapnel hooks bit into the dirt, then scrambled up the ladders.

The rockets drove the Germans back, but only momentarily. They had returned by the time Youso and White were clambering to the cliff top. How those two men made it, I'll never know. But they did, and when they got there they chased the Germans back and made it possible for other Rangers to follow them.

The big guns were spiked with thermite grenades, then the Rangers dug in for the fight of their lives. There were Germans in front of them, the cliffs and the English channel behind them, no supplies or reinforcements available. We were going to hang on, or get killed trying. It appeared pretty obvious we were all going to get killed.

Which brings me back to Youso and White. They were out on the left flank, anchoring one end of a very thin line. About 200 yards away was a German machinegun nest which was cutting our men down every time they showed their heads.

Youso and White, armed only with rifles and grenades, went after the machinegunner. To get him they had to snake along in the weeds through a German minefield. One false move and they'd be shot dead or blown to kingdom come.

Maybe 30 minutes later they were back. Youso had been shot through the elbow, White through the knee. But the machinegun nest had been wiped out.

Going up the cliffs, Youso and White had shown one kind of courage—the kind born of desperation and excitement. Here they had shown another kind—the cool, calculated courage that overcomes fear of overwhelming odds.

But there's still another kind of courage. I remember Capt. Walter Block, our medic.

Doc set up a sort of base hospital in a concrete dugout. There was room for about 15 or 16 patients, and that wasn't nearly enough. At times there were so many wounded men that most had to be left outside until somebody inside died or was patched up enough to return to battle.

In the afternoon on the first day, Doc was called outside to look at a badly wounded officer.

The officer was unconscious, barely breathing. Doc took a quick look. "You'll have to leave him out here. There's nothing I can do for him." He walked back into the dugout. The man he left to die untended and alone was a man who for years had been Doc's closest and dearest friend.

I think it took courage, too, for Ranger Robin to do what he did.

## Missouri Matches Average

## Farm Values Rise Faster Than Families Save to Buy

By Robert E. Hennessee  
Of Our Washington Bureau

WASHINGTON—Farms are getting costlier.

And millions of Americans, with dreams of rural living, may be caught up in a fruitless effort, like a rodent in a squirrel cage.

For, farm values are increasing faster than most families of moderate and low incomes are able to save.

That \$30,000 farm which you may have set your sights on last year, now has risen to \$32,400. Next spring it probably will be priced over \$35,000. In 1949, that farm was worth only \$18,000.

Thus, the person who began salting away \$1,000 a year in 1949 to buy that \$18,000 farm, now is probably further away from his dream than when he began.

Farm values have been on a steady rise since about 1933. After 1942 they began shooting upward at an enormous rate. Between March of 1938 and March of this

year they rose eight per cent.

The increase in farm values in Missouri was exactly the same as the national average for the year.

The U. S. Agriculture Department attributes the steady increase to "the attitudes of people toward farmland as an investment, and the demand from farm operators for additional land."

But behind this is the expanding population: mushrooming towns and cities eating ever outward into the country; and, inflation.

Record farm values are prevalent in all states except one—South Dakota. There, values never since have reached that golden level recorded in 1920, in the boom following the First World War.

Most economists feel certain that farm values will continue to rise and they advise prospective buyers not to be too cautious about going into debt in order to buy as soon as possible, lest they find themselves trapped in the economic squirrel cage.

## Your Child's Health

## Surgery Makes Strides In Heart Disease of Infants

By Edwin P. Jordan, M. D.

A small number of babies each year are born with defects of the heart, going under the name of congenital heart disease.

There are several different kinds of malformations of the heart, but many of them result in the mixing of oxygen-containing blood with that which has been deprived of such oxygen. This leads to a bluish color of the skin — the well known "blue baby."

Why some children are born with malformations of the heart has always been somewhat puzzling. There is still some question as to whether the cause is inherited or is the result of influences occurring after conception.

Recently an excellent study of three families was reported in a prominent medical journal. In each of them there was an unusually high frequency of congenital heart disease. Also, a review of medical literature disclosed 141 cases of multiple familial congenital heart disease.

This evidence suggested to the authors that, while environmental factors during pregnancy may occasionally cause the difficulty, it is usually the result of true inheritance according to a known method of transmission.

Congenital heart disease carries such technical names as coarctation of the aorta, tetralogy of Fallot, and pulmonary stenosis with intact ventricular septum.

What variety is present makes a difference to the patient because some kinds can now be successfully treated by surgery and others cannot. More and more of them, however, are being placed in the first group.

In one of these conditions, the passageway between the heart and one of the large blood vessels which should normally close before birth fails to do so.

This is called a patent, or open, ductus arteriosus. This opening can now be closed by delicate heart surgery with great success.

Many of the other congenital malformations of the heart can also be treated successfully by surgery. For this reason careful study of each case has to be conducted in order to make a diagnosis and to decide whether or not surgery could offer chances of relief.

For the child with congenital heart disease who cannot be successfully treated by surgery, certain precautions are particularly necessary.

Such children must be carefully examined, of course, and every effort must be made to avoid infection and excessive physical strain. In almost all cases the activity must be restricted in order to avoid the danger of overburdening a heart which already is under too much strain.

# Mint Tea Left Pilot Sick On Long Hop

LOS ANGELES (AP)—The flying granddad, Max Conrad, says he learned on his record non-stop flight from Africa to California that:

"Mint tea makes me ill."

A tired but happy Conrad said it with a grin Thursday after the 56 hour 38 minute, 7,638-mile hop from Casablanca, Morocco.

But it was no joke, he admitted, when he took a swig of the tea and became nauseated over a lonely expanse of ocean near Cuba.

"I didn't take any food — only a thermos of coffee and tea," said Conrad, who makes his living delivering airplanes around the world. "The Arabs put mint in the tea and it became rancid. Boy, I was sick."

But Conrad, 56, recovered and piloted the single engine light plane into Los Angeles, via Corpus Christi and El Paso, Tex., and Phoenix, Ariz.

"I had 18 gallons of gas left and I could have made it to San Francisco," he said. "But I heard everyone was waiting for me in L.A., so I came on in."

The first thing Conrad did after taxing his little plane across the expanse of runway was ask for a drink of water. "Oh, boy, this is good," he said, taking a long gulp. Then he ducked into a telephone booth and broke the news of his arrival to his daughter, Molly, 21, at the family home in San Francisco. He also has six other daughters, three sons and two grandchildren.

"Hello, Molly," he said quietly into the phone. "I'm fine. No, not tired. Just a little thirsty. No, I haven't a beard. I shaved this morning in the plane."

Conrad, who made the flight as a promotion stunt for the plane's manufacturer, said the most dangerous moment was takeoff.

"The plane was loaded with 500 gallons of gas," he said. "I got it off after 4,500 feet of runway, and still had about 1,000 feet to spare." A normally loaded plane of this type—the Piper Comanche—takes less than 1,000 feet to take off.

To conserve gas, Conrad throttled back from a cruising 138 m.p.h. to 100 as the gas load lightened. He flew "right on the deck"—under 1,000 feet—and hit good weather all the way.

He had originally set El Paso for his goal. But he continued on, far exceeding the 6,979-mile old record that W. L. (Pat) Boling set from Manila to Oregon in 1957.

Conrad was a band leader before he learned to fly at Denver in 1927. He is also a song writer and frequently composes while ferrying planes about the world.

"But I didn't compose any song on this flight. I usually whistle out the tune, but this time that darn tea left me too thirsty to pucker."

Burial was in Calvary Cemetery.

**It Didn't Take Her Long to Run Up a Huge Bill**

SEATTLE, Wash. (AP)—Richard O. Haynes viewed his daughter's new possessions with mixed emotions today.

Daughter Charlotte, 12, was ecstatically happy. That was good. The \$215.37 drubbing Haynes' bank balance took was another thing.

A month ago Charlotte expressed the wish that on her birthday she could go into one of Seattle's largest department stores with her mother's charge-a-plate and buy anything she wanted for a full hour.

Good idea decided Haynes, an insurance company executive, and his wife, figuring the tab would come to \$50 at the outside.

They had their little girl, the youngest of two daughters, misjudged.

When the appointed hour came around Wednesday, Charlotte ran into the store with the charge-a-plate and started buying. The store clerks had been alerted.

A busy hour later Charlotte had \$215.37 worth of new toys, clothes and stuffed animals. Mrs. Haynes had fun watching the proceedings. Haynes was figuring out his new bank balance, with mixed emotions.

# Sixth Son Joins Navy, Leaving Mother Alone

MUSKEGON, Mich. (AP)—Widowed Mary Smith, a Gold Star mother, has only household duties to occupy her time these days.

She bade a familiar farewell last week to her 17-year-old son, Floyd, the sixth of her sons who joined the Navy. One never returned.

The pattern formed 17 years ago when her sons Howard and Donald enlisted together for Navy service in World War II. They trained as recruits at Great Lakes, Ill., and for a time served aboard the same sub chaser.

A new assignment sent Howard to armed guard duty aboard the merchant vessel SS Walter Gretchen in the North Atlantic. He was one of 17 crewmen who survived the ships sinking by a U-boat torpedo.

Howard and Donald were discharged in 1945.

Meanwhile, their brother Lionel had joined the Navy at the age of 17 in May 1944. He lost his life aboard the USS Hoel, a destroyer, in the battle for the Philippine Islands.

In June 1948, Charles E. Smith became the fourth of the sons to join the Navy. He served aboard a landing ship during the construction of a United States military base at Thule, Greenland.

The fifth brother, Alfred, joined the Navy in February 1955. After service aboard the battleship Iowa and heavy cruiser Salem, he was called home by his father's fatal illness in 1957 and completed part of his hitch at Muskegon Naval Reserve Training Center before being returned to destroy duty. Alfred re-enlisted last week.

Three other children of Mrs. Smith, two boys and a girl, died in infancy.

**Attorney Rules Massey's Home Is His Castle**

WILTON, Conn. (AP)—Actor Raymond Massey's home is his castle, the town prosecutor ruled Thursday.

Because of that ancient principle of English Common Law, Prosecutor Julian Gregory decided that Massey didn't commit breach of the peace when he ejected his gardener from his home here May 11.

The gardener, 50-year-old Michael Hosko, said he quit his job and went into the Massey home to collect his pay.

Then, Hosko told police, Massey called him a name, threatened to kill him and roughed him up. Hosko filed a complaint against the 63-year-old actor.

Massey's wife, Dorothy, gave a different story. She said Hosko created a disturbance in the home and Massey asked him to leave. He refused and made a threatening gesture, she said.

Then, said Mrs. Massey, her husband pushed Hosko out the door. Prosecutor Gregory decided to dismiss the charge. "I was not satisfied," he said, "that under Connecticut law a breach of the peace had been committed."

"You might say that a man's home is his castle."

**Epworth Methodist Pastor Will Discuss 'Christ, All Things'**

"Christ and All Things" will be the sermon subject of the Rev. H. E. Trevathan, minister, at Epworth Methodist Church at the 10:30 worship service on Sunday, June 7.

Mrs. Ralph Brewer, organist, will play "Melodie Gracieuse" by Neely as the prelude and Clarke's "Beside Still Waters" as the offertory. The postlude will be "Chapel Praise" by Van Woert.

The minister will conduct religious services at Buena Vista rest home at 2:30 p.m. The public is invited.

The Methodist Men's Club will meet on Tuesday evening at 6:30 for a banquet and business meeting. An interesting program will follow the business session.

The Wesleyan Service Guild will meet on Monday evening at 6:30 at the home of Mrs. Cecil Glenn, 641 East 13th, for a barbecue and covered dish supper. All members are urged to be present.

**WOODLAND — Medical:** Mrs. Richard Bennett, 1408 South Park.

Mrs. William Smith, 1610 West Main, injured in an automobile accident a week ago, was dismissed from Bothwell Hospital Thursday night. She received back and neck injuries in a collision on Highway 2 at a point 2.5 miles west of Highway 13.

The accident occurred last Friday night after the car in which she was riding ran out of gas. Elzie McCown, Windsor, and Mrs. Smith's husband went for gasoline, while Mrs. Smith and her two children, Steven, 6, and Patricia Sue, an infant, waited in the back seat, and Mrs. McCown and her daughter, Debbie, 5, sat in the front seat.

The car was struck from the rear by another automobile. The other passengers in the McCown car escaped injury. It was reported earlier that the Smith infant was hurt, but this was not the case, Mrs. Smith said.

**WHERE'S IT GONE TO?**—The case of the disappearing Middle Fork of the South Platte River is solved by George W. Jones, state game and fish conservation officer, in Fairplay, Colo. A flash of water from an opened dam upstream washed away silt, speeding up the natural flow of water beneath the deep gravel river bed, a result of early dredging for gold. The silt gone, all the water flowed beneath the gravel. Apprehensive fishermen were reassured when the river reappeared later.

**Maybe It Beats Working in The Prison Shops**  
POTTSTOWN, Pa. (AP)—At Graterford State Penitentiary no one gets excited when prisoners climb to the top of the 185-foot water tower and stay there.

It has happened before and it happened again Thursday morning. Two men walked away from their jobs in the prison maintenance department, scaled a barbed wire fence surrounding the tower. Then they climbed one of the tower's four legs to a ladder and went on to the top.

They were still there today, sometimes sitting, sometimes pacing back and forth on a railed-in catwalk.

Why they were up there no one seemed to know, although Warden David M. Myers thought they were after publicity. And no one knew if they had any food.

"We're not going up to get them," Myers said. "They can sit up on that tower as long as they want. They're nuts."

The two are Raymond E. Thompson, 26, serving a 5-20 year term for burglary, and Donald Brady, 24, a parole violator serving an indefinite term for burglary. Both are from Philadelphia, 25 miles south of here.

Johnson, 58, is a Negro lawyer and educator. He succeeds the late J. Ernest Wilkins, also a Negro. Johnson, whose home is at Berkeley, Calif., was dean of the Howard University Law School here until last year.

A few Southerners voted against him but none of them asked for a roll call.

# Weatherman Still Sees Moisture for State

KANSAS CITY (AP)—The weatherman still is waving that wet flag over Missouri.

He says there will be scattered showers and thunderstorms in the extreme northwest this afternoon and in the west tonight with more of the same likely in the west and south Saturday.

The Saturday temperature high should be near 80. The high Thursday was 80, the reading recorded at Butler, Kansas City, Malden and St. Louis.

# Ike Appointees Are Approved By the Senate

WASHINGTON (AP)—President Eisenhower's nomination of Ogden R. Reid as ambassador to Israel and George M. Johnson as a member of the Civil Rights Commission have been confirmed by the Senate.

Both won approval Thursday on voice votes, with little of the opposition that had been forecast.

The nomination of Thomas S. Gates Jr. to be deputy secretary of defense also was approved. There had been no controversy over the naming of Gates, former secretary of the Navy, to succeed the late Donald A. Quarles.

Reid, 33, formerly was president and editor of the New York Herald Tribune. He had been recommended for confirmation by a 104 vote of the Foreign Relations Committee over the opposition of the committee chairman, Sen. J. William Fulbright (D-Ark).

Fulbright told the Senate Thursday the nomination was "improvident and irresponsible" and said he didn't know "why the President should have selected Mr. Reid for this extremely challenging, highly sensitive job."

Among those supporting Reid was Sen. Wayne Morse (D-Ore.), who fought the nomination of Mrs. Clare Boothe Luce to be ambassador to Brazil. Morse said Reid "meets the test and is entitled to confirmation."

Johnson, 58, is a Negro lawyer and educator. He succeeds the late J. Ernest Wilkins, also a Negro. Johnson, whose home is at Berkeley, Calif., was dean of the Howard University Law School here until last year.

A few Southerners voted against him but none of them asked for a roll call.

# Sorrels, Hibbard Favored to Win Saturday Night's Race at T-Bowl

## 40 Cars Expected in Race; Aleshire, Taylor Will Run

The souped-up hot-rods, commonly known as the modified stock cars of the Central Missouri Racing Association, will attempt to crack the records they established only two weeks ago when they battle for a rich cash purse at Sedalia's Thunderbowl Speedway on Saturday night.

A card of 40 cars is expected for the evening. Time trials will begin at 8 p.m.

In the last races held at the Thunderbowl on May 23, the drivers shattered all records in the heat races as Dave Gaudin of Malta Bend zipped around the quarter-mile oval five seconds faster than the previous mark in the slow heat; Dude Green of Marshall Junction whacked three seconds from all records at the Thunderbowl by winning the second heat; and Roy Hibbard followed with another new record in the fast heat, winning the ten lap event in 3:05.88. All of these drivers will be on hand Saturday night.

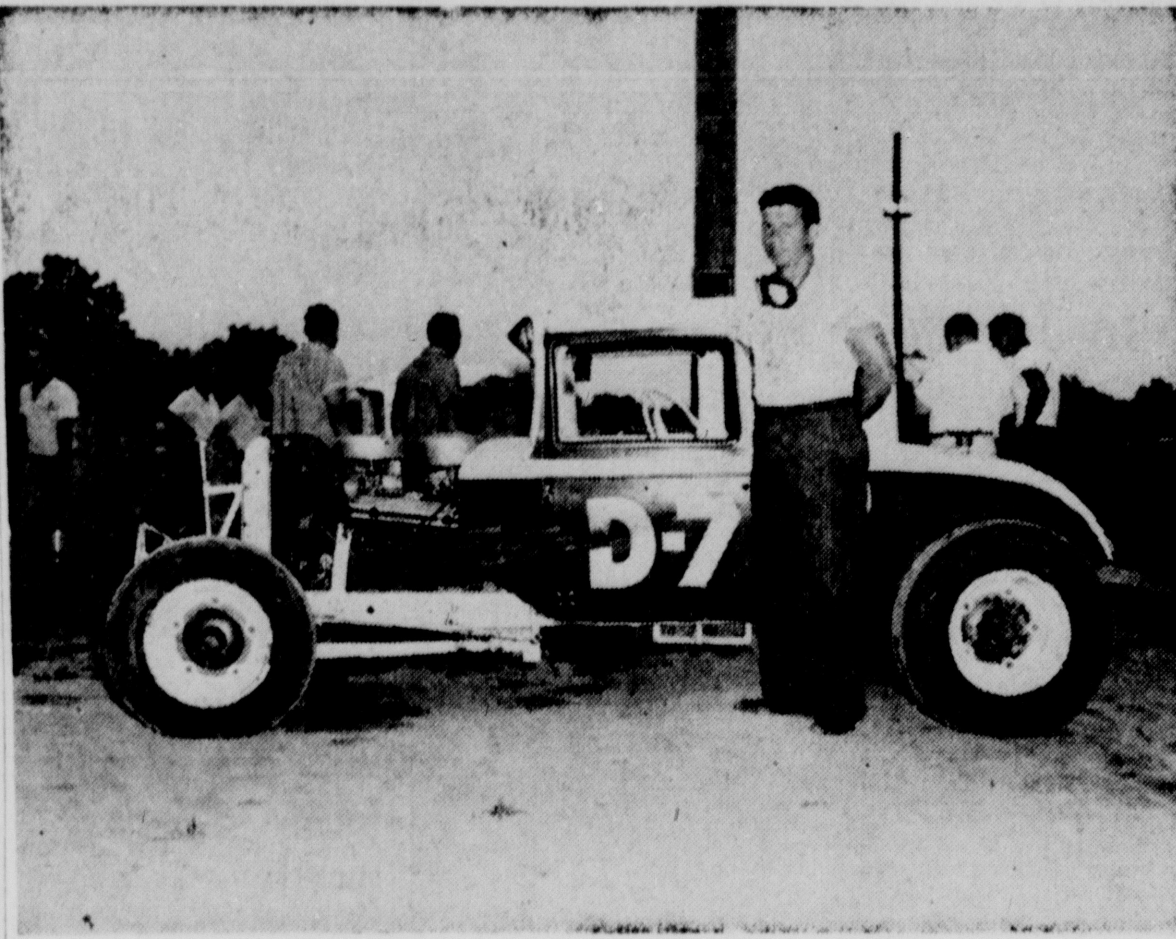

The probable favorite for Saturday night's event will be Roy Hibbard of Marshall. Hibbard, who nearly lapped the field at Moberly in the last CMRA sanctioned event, has his 1938 Pontiac powered modified running to perfection and looks like the best on the quarter-mile run at the present.

However, Hibbard will have to cope with Columbia's Walter Sorrels. For the past month the lead-footed junkman, commonly called "Smilin' Sam" has been the hottest pilot in the CMRA. He completed a long time ambition last Saturday afternoon when he swept the championship in the Midwest Modified Motorama at the Missouri State Fairgrounds in another hot Pontiac. Sorrels traveled the 35-lap distance on the half-mile oval in 17:23.81—better than 60 miles per hour. He's gunning for the point championship and is considered by many as the driver to beat.

Hibbard and Sorrels can't figure for a minute that they'll have the field alone. For two, the defending champion Ken Taylor of Slater, and two-time champ Torch Aleshire of Moberly can't be counted out. Taylor is currently leading the pack in the CMRA point derby and has won more feature events than any other driver during the past two seasons. Aleshire, the grand-dad of the circuit at 40, has won more races during his career than any other driver and he'll be hard to beat if his Studebaker Golden Hawk is performing up to par.

The fact that Taylor, Sorrels, Hibbard and Aleshire have dominated CMRA action this season doesn't mean that they have a picnic every time they race. To the contrary, any of six other drivers are capable of grabbing the checkered flag. For instance, Russ Hibbard of Slater is a point leader and has won many features in the past. Sedalia's Don Cooper, now driving a modified powered by a new Corvette engine, could slip past the top-heavy veterans; Tom Mikels of Marshall has proven this season that he can defeat the salty veterans in the fastest of competition; Chet Hamby of Kansas City, another driver of a Corvette powered car, could top the field.

With the track in tip-top condition, one of the largest fields of the season will run before what is hoped will be the largest crowd of the season at the Thunderbowl.

MIDWEST MODIFIED MOTORAMA CHAMPION, Walter Sorrels of Columbia, will be included in the 40 car field at Sedalia's Thunderbowl Speedway on Saturday night. Driving a 1938 Pontiac powered modified, Sorrels is rated as one of the favorites for the weekly battle. He's currently fourth in the CMRA point standings, but has been moving up during the past month as he car has been running without a flaw. Sorrels topped the field before 7,000 fans at the State Fairgrounds on Memorial Day in the championship race. Nearly every driver who participated in that race will be on hand at the Thunderbowl.

## Newhouser Tells Scouting Techniques

PEORIA, Ill. (AP) — The big business of baseball scouting is typified by Hal Newhouser, former Detroit Tigers pitching great.

Hal has driven more than 1,000 miles in the last several days as a supervisor scout of the Baltimore Orioles, looking over high school talent in state tournaments in Akron, Nashville, Lexington, Ky., and the Illinois meet at Bradley University.

"I think the best time to watch a boy is in pre-game practices," said Newhouser, who combs a 10-state Midwest area. "During a game you might never get a chance to see an outfielder throw, or maybe not even do much running. You can get a pretty good line on them in pre-game drills."

"The two most important things in my book when I watch a youngster is his running and throwing ability. If he hasn't got much in these departments, then he has to be awfully powerful at the plate to get consideration."

"As for a pitcher, I rate his poise No. 1. If he has no awkwardness out on the mound and if he keeps his head under pressure, I'll keep looking. The next thing he has to show me is speed, and if he has any stuff on his fast ball."

"The curve is the last thing I consider. You can teach a boy to throw a curve or a slider, but you can't teach him speed."

"As for bonuses, the Orioles leave that up to my judgment. After I study a boy and rate him in my book I establish the amount of a bonus I think he is worth. With me there is no haggling. I approach a boy and tell him honestly what the Orioles can and cannot do with him."

"I tell him how much I think he is worth. That's the price and I don't change it."

## Tipton Snaps Streak

## Cardinals Drop Lexington To End 4-Game Dry Spell

The Tipton Cardinals won their first Western Division Ban Johnson game in four starts Thursday night as Dennis Thompson and Jerry Pace combined efforts to pitch a 3-hit, 16-2 victory over the Lexington Evnruders. The game was played at Tipton.

Thompson and Pace were backed by a 13-hit Cardinal attack on three Evnrude pitchers and were helped by 11 Lexington errors. Only six of the 16 Tipton runs were earned. The Evnruders gave up after seven innings.

Thompson started the game and was the winner. He pitched one-hit ball for six innings, gave up no runs, fanned 11 and walked five. Pace hurled the seventh and final inning and gave up two hits, two earned runs, fanned two and issued two bases on balls.

Charles Kirkpatrick, Lexington's starter, was routed from the mound in the second inning and took the loss. He gave up three runs on four hits and fanned five. He was replaced by Larry Ryan, who worked until the fifth inning

and gave up five hits, seven runs and two walks. Rogee came on in the fifth for Lexington and was battered for four runs on four hits, two walks and two hit batsmen.

Carl Folkerts led the Cardinals' attack with a homer and single good for three RBIs in five trips to the plate. Bob Miller collected a double and a single in five trips and Thompson belted a double and single in four trips.

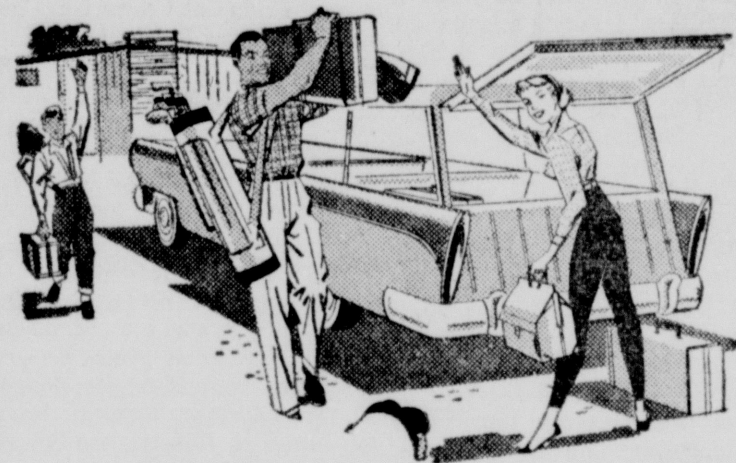

Bob Briggie, Larry Johnson and Bobby Martin each had a single for Lexington. The Evnruders two runs came in the seventh inning when Rogee walked and scored on Martin's single. Cohen reached base on a fielder's choice and Johnson drove him home.

Tipton started the onslaught in the first inning with three runs. The Cards added to their lead in every inning except the sixth.

Abortions Available  
To Russian Women

LONDON (AP)—A Soviet woman doctor says abortions are available to women in the Soviet Union at 50 rubles.  
The operation is performed at the mother's request whether she is married or not. Dr. Galina Ilyinskaya told a news conference.  
Fifty rubles is \$12.50 at the official exchange rate.  
Dr. Ilyinskaya, a gynecologist from the Moscow Health Center, is one of three Russian women doctors in Britain to attend a 40-nation conference on family planning.

### Stover Garden Club Holds Regular Meet

The Stover Garden Club met with Mrs. Otto Kroeschen Thursday evening, May 14.

The president, Mrs. Argenbright, called the meeting to order by asking for roll call. Nine members and one visitor were present. Mrs. P. H. Wilbanks was visiting.

Seeds and plants were exchanged as part of the roll call. Members told of cards and gifts received from their secret pal. After roll call and the business session, Mr. Henry Kipp presented the topic for the evening, "Wild Flowers of Missouri and Conservation of Wild Flowers."

Mrs. Otto Kroeschen had the flower arrangement for the month. Peonies and iris were used in the arrangement.

Refreshments were served by Mrs. Kroeschen.

## More Calves in North 40 When This Fall Rolls 'Round

By Erskine Johnson  
NEA Staff Correspondent  
HOLLYWOOD — "Television," says Hubbell Robinson, CBS vice president, "is neither a mess nor a miracle. It's both."

Whether he means it's a miracle when it isn't a mess, I don't know, but carbon copy programming will bring more westerns than ever to home screens in the fall. It is current TV Alley talk, at least.

A number of old reliables are only notch marks today on the

## Seasick Sailor Is Now in Army

WASHINGTON (AP) — Charles R. Darby, now an Army major, started out in the Navy.

But it didn't work. He got seasick.

After graduation from Annapolis in 1946, Darby spent nearly three years as a Navy ensign. They were sick, sick, sick years.

Finally, in November, 1948, because of his chronic seasickness, he was allowed to resign from the Navy and enter the Army as a second lieutenant.

Ever since then, Darby has been trying to get the Army to credit him for his previous Navy duty as far as the Army promotion list goes.

When he got to be a captain, the Army Board of correction of Military Records decided he was right. They added on the Navy time and promoted him to Major.

There was just one more thing. Darby figured he should get back pay differences for the rank he should have had all along the line.

Wednesday, the U.S. Court of Claims agreed with the seasick major.

It ordered back pay of something over \$1,000 to Darby. As the court put it:

"One cannot eat or put in the bank the glitter and glory that goes hand in hand with an officer of the Army."

is why 'Auntie Mame' and 'The Shaggy Dog' are so successful. And that's why horror movies are, too."

public's antiwestern guns. But the past season's 23 westerns apparently will be increased to 25 for the 1959-60 reign of badmen and bullets.

If you are weary of mayhem in Westville, think about the western writers forced to find new plot ideas, backgrounds and gimmicks. Lo, the poor western scribe—the cupboard is bare and even yesterday's leftover hash is gone.

I've been reluctant to round up information on new plot ideas, show titles and characters coming next fall, but I'm sure some of the following wild ideas of mine will be with us:

"Arrowman" — Father and the daughter face western perils with packing only a bow and arrow.

"Barbecue Smoke" — Western chef outcooks wandering chefs.

"Club Western" — Former golf pro tames western killers with seven iron.

"Have Tray, Will Serve" — The western adventures of a displaced waiter from Maxim's.

"66 Cherokee Strip" — Pinkerton detectives outwit sheriff in tracking down killers with ad of teeth-brushing stableboy.

"Cattle Train"—Weekly dramas of a cattle drive. With guest cattle.

"Rejected, Dead or Alive" — Notorious gunman-killer just can't get arrested.

Well, it could come to this, you know.

It isn't that Julie Andrews is tired of "My Fair Lady."

"It's just that I'm tired," the long-legged English charmer with the soft face and uplifted nose told me, in explaining why she's giving up the role of Eliza Doolittle (the show is now playing London) this fall.

She married her schooldays sweetheart, set designer Tony Walton, only a few hours before both boarded a plane for the visit to Hollywood.

Julie says she isn't even thinking about being in the film version of "My Fair Lady" because:

"I don't believe it will be filmed for at least six years."

Audie Murphy is having trouble

with "Whispering Smith" as the title for his new series. Paramount, where it was a movie, released the character but not the title. . . . You would be amazed at how few "live" TV shows are 100 per cent live these days. More and more sequences are being taped to permit fast costume and set changes and outdoor scenes. . . . Jack Benny's well-remembered TV special in which he joined a monkey act will be repeated on home screens in the fall.

Edd Byrne's click as Kookie on "77 Sunset Strip" will send one of his old movies, "Reform School Girl," back to movie theater screens.

The loot is piling up for the Three Stooges, who found themselves in demand again after their old two-reel comedies sparked a new generation audience on TV. Current chores: A movie, two ABC-TV specials on Thanksgiving Day and Christmas, a new series idea, two record albums and night club dates.

Groucho Marx said it to Variety's Jack Hellman:

"Everybody understands westerns because there's nothing to understand."

## Vincent Price Likes to Make Shock Movies

By BOB THOMAS  
AP Movie-TV Writer

HOLLYWOOD (AP)—The most unlikely prospect to be king of the shock movies is debonair Vincent Price.

Yes, the same Price who once played Prince Albert to Helen Hayes' "Victoria Regina." The vulture for culture who has displayed his art knowledge on TV quiz shows, who owns one of Hollywood's finest collections of paintings.

His current movie is "The Tingler," which is guaranteed to win no plaudits from the longhair critics.

Price couldn't care less.

"Sometimes I think most stars make movies to impress their friends with an artistic triumph," he remarked. "I'd rather be in pictures that make money."

His record has been pretty impressive. He started in the chills a few years back with "House of Wax," which he reported made 9 million dollars for Warner Brothers.

Last year he swatted out "The Fly" — "The only picture besides 'Peyton Place' that made money for 20th Century-Fox in 1958." Then came "The House on Haunted Hill," which is now racking up fantastic grosses. He just finished "The Bat," a reworking of the old stage thriller. Now "The Tingler," whatever that is.

"It's the best gimmick for a horror picture yet," Price explained. "The monster is actually in all of us; it's the inner fear that can actually scare us to death if not given some release."

"I think people are fed up with problem pictures," he said. "That

## Purchase Of Home Is Told

**\$12,000 a Year  
Prosecutor Pays  
\$43,599 for Home**

WASHINGTON (P)—Metro Holovachka, while a \$12,000 a-year prosecutor in racket-ridden Lake County, Ind., paid \$43,599 mostly in cash for a home, a Senate investigator said Thursday.

Counsel Robert F. Kennedy of the Senate rackets probes said this while trying without success to get information from Steven Sohacki and George Welburn, alleged operators of multimillion-dollar pinball-gambling rackets in Lake County.

Sohacki and Welburn again and again invoked the Fifth Amendment in refusing to answer Kennedy's questions.

Among other things, Sohacki and Welburn would not say whether they ever bribed county law officers or whether they worked with Holovachka to drive competing operators out of the county.

Holovachka, now deputy prosecutor in Lake County, is on call to testify Monday. He was in the hearing room Thursday, and told newsmen he had done no wrong. He accused the Senate committee of "smeared me."

Cornelius Verplank, head of the Gary, Ind., Crime Commission, testified that honest citizens in that steelmaking area near Chicago have "just no one to appeal to" for help in stamping out vice.

Verplank complained that his group had no success in soliciting aid from every level of government in Indiana. He said that when reform elements took the matter to then Gov. George N. Craig, the governor said "he didn't get enough support down there in Lake County." Craig didn't seem too interested, Verplank added.

He said a private investigator for the crime commission once found 64 gambling and prostitution places running wide open. A list of these places was sent to Holovachka, Mayor Peter Mendich and Police Chief John Foley. Verplank swore, but nothing was done.

Because of his anticrime activities, Verplank said, the underworld threatened his family with death and "tried to buy the Gary Crime Commission." He did not say who made the threats or offered bribes.

Kennedy said the record shows that while making \$12,000 a year as prosecutor in Lake County in 1955 and 1956, Holovachka spent \$43,599.46 for a home on the shore of Lake Michigan. He said the home now is valued at \$80,000.

Committee investigator Richard Sinclair said he had established that Holovachka handed the builders payments ranging from \$500 to \$5,000—mostly in \$10 and \$20 bills.

Kennedy said the spending for the home was "not the complete story by any means." He indicated he would go into more detail later.

## Missouri State Fair Is Planning Preview Of Its Attractions

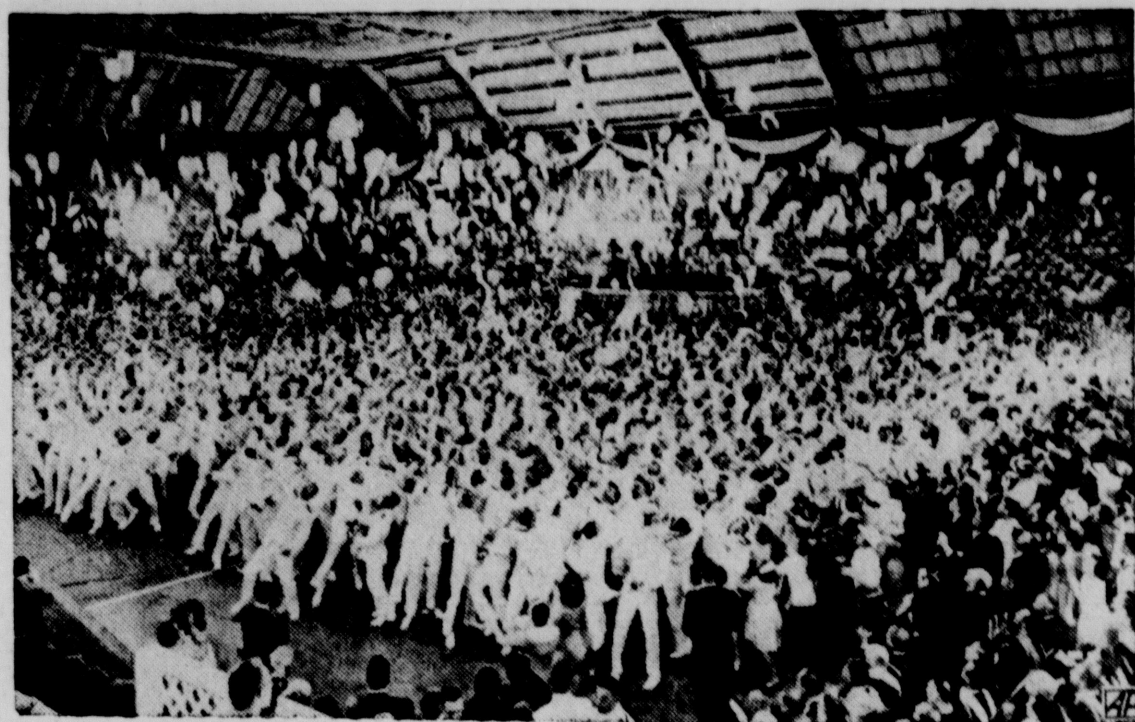

The Missouri State Fair is planning something new in a preview of its annual fairs. An informal meeting was held in Sedalia Wednesday night by several newspapermen for a plan to introduce the fair to the public through the newspapers, television and radio.

The preliminary plan was discussed and another meeting is to be held, including representatives of television and radio, with W. C. "Colie" Ervin, secretary of the fair to make the final arrangements. It will be a preview of the fair on Friday night, Aug. 21, the day before its opening, to be followed by the annual Press Day for newspaper, radio and television people on Friday, Aug. 28.

Suggestion for the preview was made by James C. Kirkpatrick, Windsor, president of the Missouri Press Association, who also asked another meeting to be held to include the representatives of the other two media.

## Konrad Adenauer Decides To Remain as Chancellor

BONN, Germany (P)—Chancellor Konrad Adenauer has decided to remain chancellor of West Germany instead of running for president, a party chief announced Thursday night.

## Hail Storm Unpopular In Kansas Town

SELDEN, Kan. (P)—"I don't think anybody has seen anything like it before, and, I hope, never again."

Mrs. Ted Andrews, wife of the mayor of this northwestern Kansas town of 382 persons, made the comment Thursday as officials surveyed damage left by a hail storm that buried the area under 18 inches of ice.

The Weather Bureau agreed with Mrs. Andrews that it was "quite unusual."

"Hail storms in the high plains area are not at all uncommon but depths such as this are unusual," it said.

The hail, peppering an area about 10 miles long and six miles wide, fell in a 2½ hour period last night. Selden was in the center of it.

C. C. Carman, Selden banker and insurance agent, said a complete check had not been made but that property damage in town should run between \$200,000 and \$250,000.

Boosting the total will be the loss suffered by farmers. Wheat was described as a total loss.

Carman said roofs of five business places collapsed. Parts of the roofs of several other buildings also caved in, he said.

About 30 basements were flooded as a torrential rain followed the hail.

Only one person was injured. He was Jim Stewart, who suffered a cut when an awning fell from a building and hit him on the head.

With National Guardsmen on duty, residents began the task of pumping out basements and cleaning up. At mid-afternoon, a foot of ice remained on the ground.

## Site Has Not Been Chosen

## MFA Will Build Mixing Plant Between Cole Camp and Ionia

The Missouri Farmers Association has announced plans to construct a bulk fertilizer mixing plant between Ionia and Cole Camp. The facility will serve MFA Exchanges in Lincoln, Warsaw, Sedalia, Stover, Versailles, Windsor, Chilhowee, Calhoun, Clinton, Cole Camp and Ionia.

"Several building sites are under consideration but as yet, none has been chosen," William Ballew, manager of the MFA Plant Foods Division explained. The proposed plant will be financed by the farmers living in the area that will be served.

The plant will furnish fertilizer mixed to the exact specifications called for by soil test. "It is like a doctor's prescription," Ballew explained. Borax and dry insecticide additives can also be incorporated in the product in desired proportion, Ballew pointed out.

The physical operation of the plant will be under the supervision of the MFA Plant Foods Division. Sales and distribution will be handled by the local MFA Exchanges served by the facility. "The fertilizer will be a fully granular product. All materials

Heinrich Krone, that he no longer wanted to run for president.

Close associates of the 83-year-old Chancellor said he has changed his mind about the presidency because he believes the international situation requires him to remain in direct control of the government.

It is expected that Adenauer will tell his party about his change of mind at an emergency meeting of the parliamentary faction Friday morning.

Adenauer originally accepted his party's nomination as presidential candidate with the explanation that he was ensuring a smooth continuation of his policy.

But it has been anything but smooth since, as his party has been split over the succession. Adenauer favored quiet, unassuming Franz Etzel, the finance minister, as his successor. But the majority of his party wanted Ludwig Erhard, vice chancellor and economics minister, regarded as a big vote-getter because he is credited with masterminding post-war recovery.

## Housewife Pleads Guilty to Raising Husband's Check

KANSAS CITY, Kan. (P)—Mrs. Ella D. Carnoali, 33-year-old Leavenworth, Kan., housewife, today pleaded guilty to raising her husband's veteran's disability check from \$209.50 to \$289.50 last September.

A pre-sentence investigation was ordered by U. S. District Judge Arthur J. Stanley.

Colonel Boone, her attorney, said the woman was the mother of six children, ranging in age from 10 months to 10 years, and was desperate for money. He said she had more than \$1,600 in debts, including a \$400 hospital debt.

## THIS IS ONE WAY TO MAKE TEACHERS SALARY STRETCH

MEXICO CITY (P)—The Mexican government has opened six stores in the capital where teachers may buy food, clothing and other articles at discounts up to 30 per cent. The Education Ministry said the idea was part of a plan of President Adolfo Lopez Mateos to improve the lot of poorly paid instructors.

## Flies 7,683 Miles

## Establish New Light Plane Flight Record

LOS ANGELES (P)—Tireless non-stop pilot Max Conrad-gaunt, thirty and happy—ended Thursday a nearly 8,000-mile solo light plane flight from Casablanca, Africa.

He brought his blue-and-white, single-engine craft in for a perfect landing at International Airport at 4:47 p.m. EST. He took off at 6:09 a.m. EST Tuesday. He was in the air 58 hours, 38 minutes. Airport sources gave the distance as 7,683 miles.

The 56-year-old veteran of the airlines claimed a new distance record for light planes. He far exceeded the 6,979 miles flown by W. L. (Pat) Boling from Manila to Oregon.

Conrad lurched stiffly from the cockpit of his Piper Comanche and told reporters he was thirsty. He smiled with vast relief as someone handed him a soft drink.

He said he ate nothing on the flight, got sick from rancid tea over Cuba, and felt so good he planned a walk "to get the kinks out" before resting.

Conrad's plane skimmed in and out of light overcast almost unnoticed even by those waiting for him. He had planned to stop at El Paso, and extending his trip here was a surprise.

This was his 56th flight across the Atlantic Ocean and by far the longest.

He said his longest previous flight was 36 hours.

Conrad told reporters he flew a big circle over Trinidad, touched the U.S. coast near Corpus Christi, Tex., and crossed the southwestern United States.

"I've got 18 gallons of gasoline left and I'd trade that for a glass of water," he said.

Somebody handed him the water. He didn't bring any water along for lack of room.

Asked how he felt about his flight, Conrad said: "Fine. Everybody likes to break a record. I've done that dozens of times but never officially. I finally decided to do it officially."

## CONVENT OF SACRED HEART AT ST. JOSEPH CLOSING IN '60

ST. JOSEPH, Mo. (P)—The Convent of the Sacred Heart, a St. Joseph teaching institution since 1853, will close in June of next year. It is operated by the religious of the Sacred Heart.

same operation applies to seeding small grain," Ballew said.

The MFA Plant Foods Division has similar bulk fertilizer facilities now in operation at Albany, Gallatin, Butler, Lockwood, Centralia, Eldorado Springs, Columbia, Slater, Union, California, Rolla and Maryville. In addition three central plants located at Springfield, Joplin and St. Louis produce some of the base materials used in the bulk plants.

Springfield and St. Louis have ammoniation plants which produce granular complete mixed materials. The Joplin facility is one of the very few that produces chemically compounded water soluble ammonium phosphate material. The majority of the potash for the new facility will be shipped direct from the mines.

It is expected that three men will be able to operate the plant. "Conveyors, batch scales and other mechanized equipment have reduced the physical labor needed to operate such a facility," Ballew said. The truck drivers for the spreader trucks will be under the direction of the local exchanges.

## Somoza Bolsters His Forces, Gets Tough With Civilians

## Students Who Started Riots Stop Thievery

**Hailed for Turning To Government's Side After 23 Dead**

GUAYAQUIL, Ecuador (P)—Students blamed for touching off riots that claimed 23 lives in Guayaquil were hailed Thursday for switching to the government's side to suppress looting.

They helped the troops of Col. Ricardo Pineros restore order after the rioting degenerated Wednesday night into wholesale thievery by members of a mob that President Camilo Ponce's government declared was Communist-inspired.

University and high school students, political bellwethers here as in other Latin-American lands, had staged a series of demonstrations in a feud with police. But they couldn't stomach the sequel.

"When the students realized the mob was engaged in wild looting, they reacted patriotically and gave us their assistance," said Pineros, commander of the Guayaquil military zone.

With 23 dead and more than 150 injured in two nights of disorders, the troops and students finally brought the situation under control about midnight.

Rioters had sacked about 40 stores and two big markets in this tropical port city of 275,000, Ecuador's largest. Even an orphanage was looted.

Security police headquarters was burned down. Gasoline drained from car tanks fed the flames. Prisoners escaped from their jail cells during the fire. Some joined the looters.

Rioters drove firemen away. They also stormed police headquarters but were driven back.

About 100 persons were caught with loot. They were jailed for trials before courts-martial under martial law decreed by President Ponce throughout the predominantly Indian nation of nearly four million people.

About 10,000 persons were in the street crowds that roved the city during the night in a followup to the rioting Tuesday that left eight persons dead.

"Down with Ponce," the demonstrators shouted.

The renewed rioting began after a big funeral for four victims of those clashes. The funeral was organized by university students.

## Vehicles Collide Scrambled Eggs But Not to Eat

A case of eggs was scrambled in the intersection of Third Street and Missouri Avenue Thursday when a truck loaded with eggs and a 1956 Buick collided there at 3:33 p.m. There were no injuries.

The truck, a 1953 International owned by Producers Exchange of Lincoln, Mo., was driven east on Third by Lawton Henry Sweargin, 46, Lincoln, and the Buick was driven north on Missouri by Leonard Arthur Salmon, 62, 303 East Second Street.

The case of eggs slid forward over the hood of the truck either when the vehicles collided or when Sweargin hit his brakes—he said he didn't know which. The egg case was tied onto the open truck bed with ropes.

The right front fender of the truck was damaged and the left front fender of the Buick was damaged. The Buick was towed away by Bacon's wrecker.

Both drivers were given summons to police court on charges of reckless and careless driving.

## Scouts Combing Town For 'Yard of Month'

The "Yard of the Month" scouts are out looking over the yards and will be for the next few days for it is getting close to the time of the judging again.

Yards that have received recognition before will not be turned in again by the scouts, but this month there should be a long list for the grass everywhere is thick and green and the flowers are blooming in abundance.

The lists will be turned in to Mrs. A. A. Ferguson, chairman of the city beautification committee of the civic division of the Chamber of Commerce by the scouts.

## Destroyed by Air Friction

## Discoverer III Satellite Apparently is a Failure

VANDENBERG AIR FORCE BASE, Calif. (P)—Discoverer III's four black mice apparently are dead.

The Air Force said Thursday all available data indicates the satellite-rocket re-entered the atmosphere several thousand miles from the pad where it was launched here Wednesday and was destroyed by air friction.

They had hoped to put it into orbit for 26 hours, eject the mouse capsule near Hawaii and catch its parachute, making the rodents the first creature to return alive from orbit.

Roy W. Johnson, director of the Advanced Research Projects Agency, said "One of the possibilities under investigation is that the injection angle of the vehicle was improper."

This means that the angle at which the second-stage engine kicked the satellite toward orbit was too high or too low or off to one side.

The second-stage engine was not powerful enough to send the satellite beyond the earth's gravitational pull. Any major deviation from its planned course would eventually cause it to fall back into the atmosphere.

Johnson's announcement came 22½ hours after what appeared a perfect launching of the two-stage rocket at 1:09 p.m. Wednesday. Thirteen minutes later the second stage, containing the mice in its nose cone, passed beyond the range of a tracking ship 1,200 miles south of here.

That was the last signal heard from the Discoverer III. Tracking stations in Alaska and Hawaii failed to catch any signal, indicating the vehicle went down before completing its first orbit.

Attempts to find the vehicle by bouncing radar beams off its skin have been futile.

It was several days before the first Discoverer rocket was determined to be in orbit, but this was because the satellite was tumbling in orbit and disrupting the transmission of its radio beacon.

Discovered II, stabilized in its orbit by jets of compressed gas, was easy to find, but it too failed. Its instrumented capsule, because of improper setting of its ejection-timing device, was tossed out over Norway instead of Hawaii. The capsule was never recovered. Neither of the first two Discoverers carried animals.

What these boys need are good thrashings," he said. The fathers of the boys, in court with their sons, agreed.

"We have a spare office here if you fathers are interested in taking care of those boys now," the judge said.

The fathers led their sons into that courthouse room. The sounds of whipping and wails of anguish could be heard for several minutes as the parents used belts on their boys.

Finally the two fathers and two sons emerged. Judge Connett looked the boys over and announced: "Case dismissed."

Nicaragua's army now is the strongest in Central America. Nevertheless, the government said it is doubling the force by adding 2,000 troops. Another 10,000 reservists are being called up for training.

Presumably the troop building is aimed at discouraging any more invasion attempts. All incoming ships and planes are being challenged.

Displaying increasing irritation against nonmilitary opposition, the Somoza government canceled import licenses for one company and seven businessmen who participated in a general strike earlier this week.

This cuts them off from shipments of foreign goods, a necessity for merchants in this banana republic that produces practically no manufactured goods.

The government has charged the strike was a "reactionary" political action timed to coincide with the invasion. At one time up to half of the stores and banks were closed, but the strike is waning.

Soldiers stood guard everywhere in the capital and the government even confiscated road maps to confuse any prospective invaders.

## Previously Had Claimed Easy Victory

**Doubling Armed Forces to Hold Off Invasion Attempts**

MANAGUA, Nicaragua (P)—President Luis Somoza's government bolstered its armed strength Thursday and got tough with civilian opponents at home. The government's actions contrasted with claims of easy victory over a small band of invaders.

Two plane-loads of invaders, many described as political exiles, landed in Nicaragua early this week from neighboring Costa Rica. Somoza soon announced his troops had them on the run and would wipe them out.

Government estimates have not listed rebel strength at any more than 75 men. But the threat to Somoza's regime immediately set up echoes throughout the hemisphere, especially in Cuba and Venezuela, which recently got rid of their dictators.

The Venezuelan Chamber of Deputies passed a resolution unanimously backing the people of Nicaragua in their fight for freedom.

In Havana, Nicaraguan exiles began selling rebel bonds to finance the surging forces. A number of Cuban labor unions were among the first to subscribe.

Nicaragua has taken the case to the Organization of American States. Nicaraguan Ambassador Guillermo-Sevilla Sacasa told the OAS that three yachts from Cuba were near his country's coast carrying revolutionaries from other nations.

Some here in Managua were skeptical of that report. So was Cuban Ambassador Raul Rao, who protested to the OAS and said it should not intervene as it did in Panama recently. Panama was invaded by a band of adventurers from Cuba and the OAS negotiated their surrender.

The United States warned against hasty action. The Somoza regime has depended on U. S. arms for years, but the United States now is fearful of unbalancing its already delicate relations with Latin America by rushing to the aid of any dictator.

## Pimiento Is a Versatile Delicacy

HARLEQUIN HAM STEAK . . . gets its name and festive air from topping of pimiento diamonds.

By CECILY BROWNSTONE  
AP Newsfeatures Food Editor  
Soft and succulent, such a pretty scarlet! So many things to do with the bright pimiento that comes in jars and cans.  
Maybe we're attached to this good food because when we were young it was always at hand on our family's kitchen shelves. Often nowadays we see cooks using pimientos only as a garnish. But my mother used them in a number of dishes of delectable flavor. One way was in a sandwich

spread. Cheddar cheese was put through a food grinder along with walnuts, pitted green olives and a lavish amount of pimiento; then a little old-fashioned homemade "boiled" dressing was added. The mixture was spooned into jars and stored in the refrigerator. It was a spread that made an extra-special sandwich filling, served at the large "teas" at which a cook's best recipes for sandwiches, cakes and cookies were brought forth. Strips of pimiento, along with sauteed mushrooms, also went in

to my mother's creamed chicken. But this chicken was something out of this world because the white sauce was made with thin cream and bound further with egg yolks.  
Recently when our brother-in-law went on a diet (and lost 20 pounds) he was allowed a cottage-cheese and pimiento sandwich for lunch. He tells me he thoroughly enjoyed the combination. To make one of these sandwiches, spread two slices of protein bread generously with a cottage cheese. Arrange a whole pimiento over the cheese and press the bread slices together. The pimiento gives real flavor and its calories are hardly worth counting.

A friend of ours, a career girl who lives alone, tells us that when she wants ham and doesn't look forward to trying to enjoy a large cut interminably, she buys a thick fully-cooked ham slice. Under the broiler it goes to be basted with a glaze; she uses several tablespoons of currant jelly melted with a teaspoon of prepared mustard. When the ham is hot enough, she removes it from the oven and scatters lots of pimiento in small diamond shapes over the top. These are placed on the ham with whole cloves. Then under the broiler again for a quick basting—

but not long enough to brown the pimiento. Our friend calls this dish Harlequin Ham and serves it to four guests along with green beans, a tossed salad and hot biscuits made from a mix.

Adolescent Pregnancy Is on the Increase, Social Worker Claims  
SAN FRANCISCO (AP)—Pregnancy among unmarried adolescent girls is increasing, possibly influenced by teen-agers' tolerance toward sexual activity, a government social worker said today.

Mrs. Katherine Brownell Oettinger, chief of the U.S. Children's Bureau, said this trend is likely to continue, giving welfare groups a rapidly growing problem.  
Addressing the National Conference on Social Welfare, Mrs. Oettinger said illegitimate births have been rising steadily for two decades. In 1940 there were 89,500 and by 1957 they jumped to 201,700. The rate of motherhood per 1,000 unmarried women tripled between 1940 and 1956.

There has been an accompanying increase in venereal disease among teen-age boys and girls, Mrs. Oettinger said.

Miss Watson said she found it easier to study in the daytime, too.  
Yes, they missed the sports, the social life, the extra-curricular activities that go to making the high school years some of the best in an American kid's life.

"But I guess nothing is too much to pay for an education," said Jim Ream. "It's worth it."  
"What about your social life? Doesn't this cut in on your dating?"  
Adelia Watson shook her head. "My parents don't let me do any dating on school nights anyway," she said. Jim Ream said he had been too busy, what with one thing and another.

When Jim Ream's card came the other day, announcing graduation day, I thought of him and Adelia Watson and hundreds of bright-looking, intent boys and girls in the classrooms that night.  
So here's a salute to you, Jim Ream, and to you, Adelia Watson, and all your friends in the class of 1959. You're getting a special diploma in a few weeks.  
And all of you are mighty special too, in my book.

WASHINGTON (AP)—Nyle M. Jackson, a native Missourian long familiar on the Washington scene, is now executive assistant to Postmaster General Arthur E. Summerfield. His appointment was announced yesterday.

Jackson was born at Bradleyville in Taney County, attended high school in Springfield and was graduated from Westminster College at Fulton.  
He has been in Washington since 1941, when he was secretary to former Rep. Earl Wilson of Indiana. Until recently he was a member of the staff of Sen. Thurston B. Morton (R-Ky.).

Fluid Squirting Prank Backfires  
WICHITA FALLS, Tex. (AP)—A 15-year-old junior high school student squirted lighter fluid on a younger boy as a third struck a match to the fuel.

Hospitalized Wednesday with second and third-degree burns on his back was Bennie Spencer, 14, a student monitor who was directing students in the crowded corridor.

Principal T.B. Parnell called the act "a prank that backfired" on the last day of school at Reagan Junior High School. The two boys were questioned by juvenile department officers but their names were not released.

## Commencement For Seniors At California

American Women to Semi-Finals In Tennis Tournament  
SURBITON, England (AP)—Sally Moore of Bakersfield, Calif., and Gwen Thomas of Shaker Heights, Ohio, reached the semifinals of the Surrey Lawn Tennis Championships Thursday.

Miss Moore defeated Mrs. Rosemary Deloford of England, 6-2, 6-0. She will meet Britain's Julie Lintern Friday. Miss Thomas' opponent Thursday, Deire Catt of England, withdrew because of illness. The Ohioan will meet Britain's No. 1 player, Ann Haydon, in the other semifinal.

Holds Regular Meet  
Mrs. Bill Findland, R. N., gave a talk on "First Aid" at the meeting of the Bothwell 4-H Club held May 18th at the Bothwell School.

The next meeting will be held at Bothwell School on June 8, at which time a demonstration by Kay Sprinkles and Cheryl Griffith will be given and Mary Brown will give a talk.

WASHINGTON (AP)—Nyle M. Jackson, a native Missourian long familiar on the Washington scene, is now executive assistant to Postmaster General Arthur E. Summerfield. His appointment was announced yesterday.

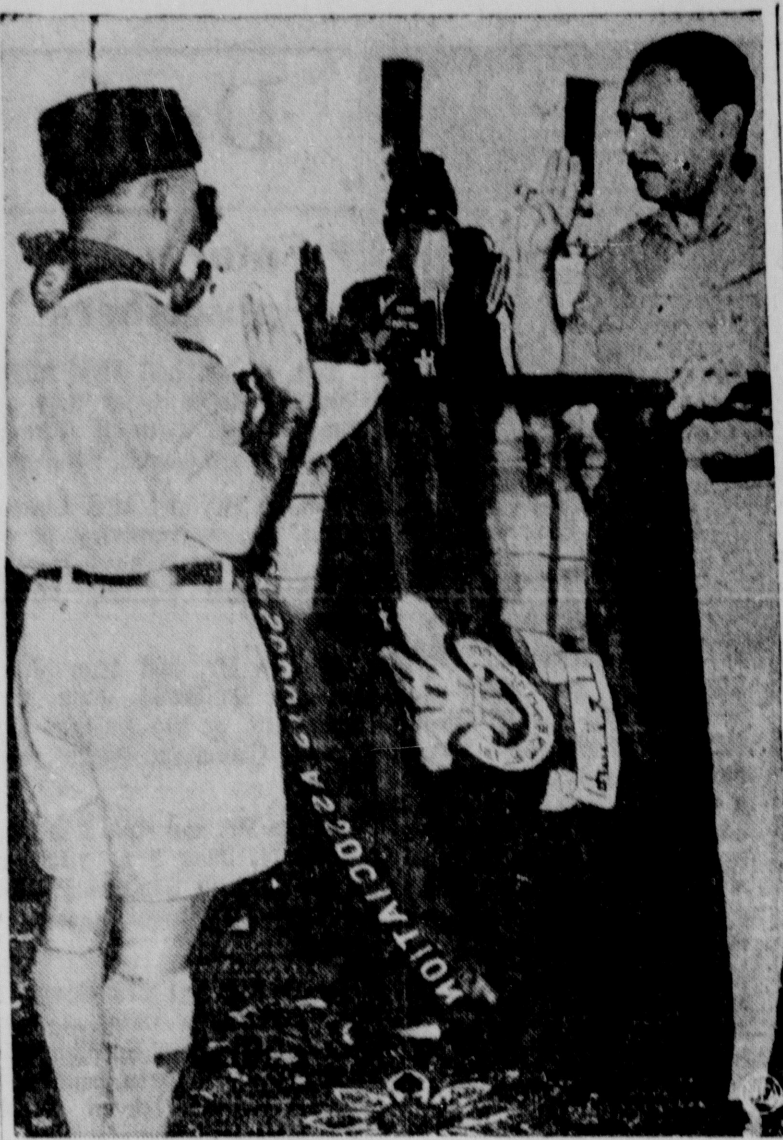

Jackson was born at Bradleyville in Taney County, attended high school in Springfield and was graduated from Westminster College at Fulton.

He has been in Washington since 1941, when he was secretary to former Rep. Earl Wilson of Indiana. Until recently he was a member of the staff of Sen. Thurston B. Morton (R-Ky.).

Fluid Squirting Prank Backfires  
WICHITA FALLS, Tex. (AP)—A 15-year-old junior high school student squirted lighter fluid on a younger boy as a third struck a match to the fuel.

Hospitalized Wednesday with second and third-degree burns on his back was Bennie Spencer, 14, a student monitor who was directing students in the crowded corridor.

Principal T.B. Parnell called the act "a prank that backfired" on the last day of school at Reagan Junior High School. The two boys were questioned by juvenile department officers but their names were not released.

The quarterly meeting of the Home Economics Extension Club Council will be Monday, June 8, beginning at 1:30 p.m. in the conference room of the Business College, 605 South Massachusetts. The president will select a new member to accompany her to this meeting.

Testing Pressure Cookers  
The Extension Office, 605 South Massachusetts, has equipment for testing pressure cooker gauges. Bring lid of cooker.

Greens Are Good And Good for You

Spring greens are known for their nutritive value. The deeper the green the leaves, the higher the vitamin A content. Besides vitamin A, all greens are good sources of vitamin C and iron. Also, they are low in calories when they are not heavily seasoned. For freshness select greens with crisp green leaves and free from blemishes. Avoid wilted, flabby leaves as they are no longer fresh and tender.  
To cook greens use only a small amount of water; the water that clings to the leaves when they are washed may be adequate. To avoid that disappointing color change that sometimes occurs in green vegetables, do not overcook. Five to ten minutes usually is sufficient cooking time. Remove the lid from the pan for the first five minutes of cooking, or use a lid to allow steam to escape. This will allow some of the mild acids to escape that cause greens to discolor. Greens look and taste better when served immediately after cooking. Many of the greens may be cooked, but all of them may be served in salads. When there is less danger of destroying or losing the food value.

Ideas for Menus. Use fresh spinach in tossed salads. Spinach and onion rings, spinach and other greens, or spinach and rosy-cheeked apple slices are good companions. For casseroles, spinach and hard cooked eggs, spinach souffle or spinach with cheese sauce. Add chopped parsley to scrambled eggs and omelets. Heat parsley in melted butter and add to potatoes or carrots. Slice Chinese cabbage and bake it with stewed tomatoes; top with grated cheese. Two every two quarts of tender greens (wild or garden—) one or in combination) allow 1/4 cup meat drippings, 1/2 cup vinegar and a little onion for wilting. Kale—Remove tough mid ribs, cook, serve with salt, pepper and a cream sauce, salt, pork, bacon or try nutmeg for variety when seasoning kale. Cook dandelion greens in casserole as spinach or simmer in liquid from cooked ham or corned beef.

Sweet Sour Cabbage  
Four cups shredded cabbage, 2 cups chopped apple, 1/4 cup water, 1/4 cup bacon fat, 1/2 teaspoon salt, dash of white pepper, 1/4 cup cider vinegar and 1 tablespoon sugar.  
Cook cabbage, apple and water in covered fry pan at 220 degrees for 15-20 minutes or until tender. Add remainder of ingredients. Cook uncovered at 220 degrees until most of the liquid has evaporated. Serves four to six.

Question Box  
Question: Does chocolate added to milk destroy all nutritive food value of the milk?  
Answer: There was an idea at one time that chocolate added to milk made the calcium unavailable. However, recent research shows that this is not so. We do say that chocolate milk is not as desirable as plain because of the added sugar.

Closing Exercises  
Pupils of the Lincoln School held their closing exercises Thursday evening.

The primary grades have recitations, action songs and a play, "The Fate of Slim Lu." The only eighth grade graduate was Sebella Perry. She gave an oration using for her subject, "Youth Faces a Changing Social Order." Guest speaker for commencement was Miss Athleen Walls, Slater. Her subject was "The Purpose of Education."

Sebella Perry, piano pupil of the teacher of the school, Mrs. Gladys Brown, rendered a piano solo, "The Dragon Fly," and a duet with her teacher. She also rendered several solos on a portable organ.

Two former students of the Lincoln School, Charles Alvin Trigg and Jewell Perry will receive their diplomas from the Boonville High School May 21.

Robert W. Brown received his masters degree from Atlanta University as clinical social worker and Alvin W. Brown, a graduate of Lincoln University, with a BS in education is teaching in Jefferson City. Mrs. Gladys Brown will return to teach Lincoln School in the fall of 1959 to begin her 16th year as teacher in the school system at Blackwater.

The secret ballot for voting originated in Australia, according to Encyclopedia Britannica.

## Hughesville Seniors Make Tour of South

The Hughesville High School seniors have just returned from a tour of the south. This tour was made possible by funds collected through four years of high school from selling food at basketball games, plays a smorgasbord, magazine sales and other activities.

The class used a chartered bus which was air conditioned for the comfort of the passengers.  
Over-night stops included one night at Jackson, Miss., two nights at Biloxi, Miss., two nights in New Orleans, and one night in Vicksburg, Miss. Altogether, the class visited seven states.

It took a 14-mile excursion boat trip to Ship Island in the Gulf of Mexico. This island was used by the British as a base for their attack on New Orleans during the War of 1812. The ruins of an old fort still remain. The group swam at beautiful Pensacola Beach in Florida.

Several hours were spent on a guided tour of historic New Orleans, which included the world famous old French Quarter, the colorful city park, and many other interesting places. One evening was spent at Lake Pontchartrain Beach Amusement Park. The roller-coaster was popular with the braver ones of the group. Another interesting and educational tour was the battlefield at Vicksburg, said to be the best preserved battlefield of the Civil War.

Mr. and Mrs. W. H. Weller had as recent guests, Mr. and Mrs. Tom Weller of Gary, Ill., and Bryan Weller, Chicago, Ill.

Mrs. H. W. Doss and children, Alan and Brian, Ann Arbor, Mich., are visiting her parents, Mr. and Mrs. L. B. Beach, while Mr. Doss, who is in the U. S. Air Force Reserve, is taking two weeks of active duty at the Wright, Patterson Air Force Base near Dayton, O.

Methodists May Re-Appoint Bishop Frank  
KANSAS CITY (AP)—Delegates attending the 21st annual Southwest Conference of the Methodist Church in Missouri urged re-appointment of Bishop Eugene M. Frank and transfer of the Missouri area headquarters to Kansas City from St. Louis.

They acted unanimously by resolution yesterday as the conference opened. The resolutions will be submitted to the Southwest Jurisdictional Conference of the church in June of 1960.

The bishop's term is for four years.  
The conference said transferring his headquarters would make possible better supervision of the new National Methodist Theological Seminary in Kansas City and facilitate important church programs.

The Rev. Hugh U. Campbell, conference treasurer, reported he processed \$627,619.68, including \$123,373.59 in benevolences, during the year.

The items included Central College development program \$84,684.11; National Methodist Theological Seminary \$18,934.17; pension fund \$156,352.74; Methodist students in tax supported schools \$3,592.50; radio and television programs \$1,032.

## Some Schools Different

## Graduation Exercises Held In Nationwide Ceremonies

NEW YORK (AP) — The white card, embossed with a gold coat-of-arms, announced the date of graduation exercises for a high school in Virginia.

Inside, a smaller card bore the name, James D. Ream Jr.

Well, June is at hand. June is the month when, all over America, the high school band plays "Pomp and Circumstance," or some other march, and the seniors step up for diplomas.

These cards, however, the big one and the smaller one, represent something unusual, something special.

On a chilly night last December, I crossed the bridge into South Norfolk, Va., and found the Oscar F. Smith High School. Lights burned in the classrooms, the study halls, the auditorium, the library. The grounds outside were quiet and the halls deserted.

It was a little after 8 p.m. Isn't that the hour when teenagers are supposed to be munching popcorn in the movies, or hot-rod-ding around town looking for a traffic accident to get hurt in?

There was an air of purpose about this school.  
It was a night high school. The pupils all came from nearby Norfolk, where the regular schools had been closed in the dispute over federal court orders to integrate. In South Norfolk, authorities offered their facilities — at night — for all who wanted to use them.

Nearly 800 boys and girls did. They had started at 4 in the afternoon, taken a half-hour break at 5:45, and gone back to work. The final bell would ring at 9 o'clock.

No truant officer compelled them to be in school. They were there because they were determined to get a diploma.

E. E. Brickell, the principal — whose own hours at that time were from 8 a.m. to 11 p.m. — said attendance was running better than 95 per cent. Disciplinary problems? Practically none. And grades? Above average.

I asked if I could talk with some of the pupils.  
He called in a pretty, serious-faced girl, Adelia Watson; and a tall, lean, clean-cut boy, Jim Ream. Both were seniors, both 17.

## Reception Honoring Fiftieth Anniversary

The reception honoring the fiftieth anniversary as a physician and surgeon of Dr. J. F. Potts was held Thursday evening at the American Legion building.

A dinner attended mostly by the honorees and their family members and by fellow doctors and their families preceded the reception. During the dinner there were welcomes and congratulations from Mayor Stratman representing the city and from Johnny Latham, president of the Chamber of Commerce.

Mrs. John Carter was in charge of the guest book and Bill Dawson, soloist, accompanied by Mrs. Dawson presented the music.

At the close of the evening Doctor and Mrs. Potts were the recipients of a Bible from the Tipton Ministerial Alliance, and from the citizens a chair, lamp, a 50-year gold pin and TV trays, the presentations being by Mayor Stratman.

SIDE BY SIDE—The old and the new in London street lighting stand next to one another. Workmen installed the new electric lamp before removing the old-fashioned gas lamp alongside. New lamp is at left.
